(3) Dividends

The Board of Directors of the Company approved the adoption of a new dividend policy effective 2021 of maintaining an annual cash and/or share dividend pay-out of up to ten percent (10%) of its net profit after tax from the preceding year, subject to:

- the requirements of applicable laws and regulations, such as the availability of unrestricted retained earnings;
- the terms and conditions of its outstanding bonds and loan facilities, as the case maybe; and
- the absence of circumstances that may restrict the payment of such dividends, such as where the Company undertakes major projects and developments.

There were no cash dividends declared within the last two (2) fiscal years.

(4) Recent Sales of Unregistered or Exempt Securities, including Recent Issuance of Securities Constituting an Exempt Transaction.

In relation to the Stock Rights Offering, the Company filed notice of confirmation of exemption from registration pending issuance of certificate of confirmation.

2. There is no person who is not an executive officer but expected by the registrant to make significant contribution to the business.
3. Ms. Dee Hua T. Gatchalian and Ms. Elvira A. Ting are sisters.
4. None of the directors or officers of the registrant has been involved in any: (a.) Bankruptcy Petition, (b.) Violation of a Securities or Commodities Law, (c.) Conviction by final judgment, (d.) Nor has the foregoing officers been subjected to any order or decree, (e.) None of the foregoing incidents occurred during the past five (5) years up to 31 August 2021 that are material to, and for purposes of SEC's evaluation.
5. Certain Relationships and Related Transactions.

The company used to be known as Philippine Cocoa Estates Corporation. The Company then had a total issued and outstanding capital stock of 25,121,603 shares, of which, 25,035,115 were owned by Benguet Management Corporation (“Benguet”). In December 1995, Benguet sold its 25,035,115 shares to the Wellex Group, Inc. (“Wellex”). At present, Wellex holds 989,472,220 shareholdings in the Company.

Board of Directors

The Corporation has adopted the SEC Circular No. 16 series of 2002 (Guidelines on Nomination and Election of Independent Directors) and pursuant to SRC Rule 38, compliance therewith has been made.

The nominees for election to the Board of Directors of the Corporation on October 7, 2022 are as follows:

1. Arthur M. Lopez
2. Arthur R. Ponsaran
3. Byoung Hyun Suh (**Independent Director**)
4. Dee Hua T. Gatchalian
5. Elvira A. Ting
6. Josaias T. Dela Cruz (**Independent Director**)
7. Kenneth T. Gatchalian
8. Renato C. Francisco (**Independent Director**)
9. Richard L. Ricardo
10. Ruben D. Torres (**Independent Director**)
11. Sergio R. Ortiz-Luis, Jr.

A summary of the nominees’ qualifications is presented in the preceding paragraph.

The Nominations Committee conducts nominations and pre-screens the qualifications of candidates for Independent Directors prior to the stockholders’ meeting in accordance with Sec. 5, Art. III of the Corporation’s By-Laws. All the nominees for election to the Board of Directors satisfy the mandatory requirements specified therein.

The independent directors have certified that they possess all the qualifications and none of the disqualifications provided for in the SRC. The Certifications of the independent directors are attached herewith as Annexes “A-1”, “A-2”, “A-3” and “A-4”.

Pursuant to the process conducted by the Nominations Committee, the nominees for election as independent directors of the Board of Directors on November 5, 2021 are as follows:

Mr. Byoung Hyun Suh, 65 years old, Korean, is an **Independent Director** of the Company. He also serves as the President of the Pan Islands, Inc. and Bonamis Pharmacy Phil's Corp.; Independent Director of Forum Pacific, Inc., Metro Alliance Holdings & Equities Corp and Wellex Industries, Incorporated; and Director of World Okta Federation.

Item 7. Independent Public Accountant

The Company’s independent public accountant is the accounting firm of Diaz, Murillo, Dalupan and Co. The same external auditor might be recommended by the Board of Directors at the Annual Meeting of Stockholders. The representatives of the external auditor are expected to be present at the Meeting, where they will have the opportunity to make a statement if they so desire. Such representatives are also expected to be available to respond to appropriate questions.

Rotation of External Auditors

The Company in compliance with SRC Rule 68 Par. 3(B)(ix) expresses that its independent auditors, the accounting firm of Diaz, Murillo, Dalupan and Co. and the signing partners thereof shall be rotated after every five (5) years of engagement and that a two-year cooling off period shall be observed in the engagement of the same signing partner(s).

The signing partner of our external auditor- DIAZ MURILLO DALUPAN AND COMPANY for 2020 to 2021 Audited Financial Statements is Mr. Richard Noel M. Ponce. He replaced Ms. Rosemary D. De Mesa who retired in 2019 from Diaz Murillo Dalupan and Company. Ms De Mesa was the signing partner of our Audited Financial Statements for 2018, replacing Jozel Francisco C. Santos, Jr. who was then the signing partner in 2017

There were no changes in or disagreements with the Company's external auditors on accounting and financial disclosures.

(a.) Audit and Audit-Related Fees	YEAR	AMOUNT
1. Audit of Financial Statement	2021	635,250
	2020	605,000
2. No audit fees for other related services		
(b.) Tax Fees	2021	nil
	2020	nil

(c.) All other Fees

No other fees were billed and paid during the last two (2) fiscal years.

(d.) The external auditor regularly tenders an audit engagement proposal which the audit committee reviews. The audit committee looks into the audit plan, scope and frequency of the audit and regularly holds audit committee meeting with the external auditor

Item 8. Compensation Plans

No action is proposed to be taken during the stockholders' meeting with regard to any stock options, warrants or rights plan, pension/retirement plan, or any other type of compensation plan.

C. ISSUANCE AND EXCHANGE OF SECURITIES

Item 9. Authorization or Issuance of Securities Other than for Exchange

There are no matters or actions to be taken up in the meeting with respect to authorization or issuance of securities.

Item 10. Modification or Exchange of Securities

There are no matters or actions to be taken up in the meeting with respect to the modification of any class of the Company's securities or the issuance of authorization for issuance of one class of the Company's securities in exchange for outstanding securities of another class.

Item 11. Financial and Other Information

The audited financial statements as of December 31, 2021, Management Discussion and Analysis, Market Price of Shares and Dividends and other data related to the Company's financial information are attached hereto.

The interim financial statements as of June 30, 2022 and other data related to the Company's financial information are likewise attached hereto.

Item 12. Mergers, Consolidations, Acquisitions and Similar Matters

There are no matters or actions intended to be taken up in the meeting with respect to mergers, consolidation, acquisition, sale or liquidation of the Company.

Item 13. Acquisition or Disposition of Property

The Company aims to expand its inventory of projects through the acquisition of land in selected areas where economic growth is expected to show resiliency (i.e. Bulacan and Cavite). In this regard, the board of PHES has approved to undertake a Stock Rights Offering ("SRO") to raise capital for land acquisition.

Item 14. Restatement of Accounts

The Company is not taking any action with respect to the restatement of any asset, capital, or surplus account.

D. OTHER MATTERS

Item 15. Action with Respect to Reports

There is no action to be taken with respect to any report of the Company or its directors or officers, except for the approval of the minutes of the previous annual stockholders' meeting of the Company held on November 5, 2021.

1. Minutes of the Previous Annual Stockholders' Meeting

The Minutes of the Annual Stockholders' Meeting held on November 5, 2021 contains the approval of the Minutes of the year 2020 Annual Stockholders' Meeting, the approval of the year 2020 Annual Report and the Audited Financial Statements, the ratification of the acts of the Board of Directors and management during the year 2020, the election of the external auditor, the election of external counsel and the election of the members of the Board of Directors.

The stockholders who attended the 2021 ASM in person and by proxy represent 804,369,590 common shares, constituting 55.64% of the total outstanding capital stock of the Company as of record date October 11, 2021.

Corporate Governance

The Corporation adheres to the principles and practices of good corporate governance, as embodied in its Corporate Governance Manual and related SEC Circulars. Continuous improvement and monitoring of policies have been undertaken to ensure that the Corporation observes good governance and management practices. This is to assure the shareholders that the Corporation conducts its business with the highest level of integrity, transparency and accountability.

The Board of Directors is elected during the annual meeting and has the overall responsibility to oversee the activities of the Company. The Board conducts itself with honesty and integrity to ensure a high standard of best practices on governance for the Company and to promote and protect the interest of the Company, its stockholders and other stakeholders.

The Company realizes its duty to protect the rights and benefits of shareholders and to place the importance on fair and equal treatment of shareholders. It is the Company's policy to disclose information with respect to business operation with accuracy and transparency, including any issues that could impact the Company's business and the rights in which shareholders and minority shareholders are entitled to, such as shareholders' participation in the shareholders' meeting to exercise their voting rights, the rights to receive dividend, or the rights to approve a decrease or an increase in capital, etc. The Board has similarly adopted a Corporate Governance Policy to ensure that the rights of its shareholders particularly those that belong to the minority or non-controlling group are respected and protected by adopting the principle of "one-share, one-vote", likewise by ensuring that all shareholders of the same class are treated equally with respect to voting rights, subscription rights and transfer rights and also by having an effective, secure and efficient voting system, and an effective shareholder voting mechanism to protect minority shareholders against actions of controlling shareholders. In accordance with SEC Notice dated April 20, 2020 providing for an alternative mode of distributing ASM notices, notice and agenda of the Annual Stockholders' Meeting (ASM) and definitive copies of the Information Statement will be published via the Company's website and PSE Edge. In addition, the notice will be published in two (2) newspaper of general circulation, in print and digital format.

The Company also paid for registration fees for seminars which the Company's employees attended for continuing professional education such as Tax Seminar conducted by BIR, Disclosures Seminar by the Philippine Stock Exchange, Mandatory Continuing Legal Education and other seminars related with real estate development.

The Company submitted its Integrated Annual Corporate Governance Report (I-ACGR) on May 27, 2022 covering the year 2021.

As of **August 23, 2022**, there are no known material deviations from the Company's Manual of Corporate governance.

Item 16. Matters Not Required to be Submitted

There is no action to be taken with respect to any matter which is not required to be submitted to a vote of security holders.

Item 17. Amendment of Charter, By-Laws & Other Documents

In accordance with the provisions of Rule 38 of the Securities Regulation Code (SRC), as amended, the

Company on March 17, 2005, has amended its By-laws, to include provisions for the nomination and election of at least two (2) independent directors and provisions for the creation and functions of the Executive Committee, Audit Committee and Corporate Governance.

In light of the COVID-19 pandemic and to ensure the safety and welfare of our stockholders, the corporation will not amend its by-laws but will comply with the SEC Memorandum Circular No. 6, Series of 2020 on March 12, allowing participation in corporate meetings through teleconferencing, video conferencing and other remote or electronic means of communications, amid the outbreak of the new coronavirus disease, COVID-19

Item 18. Other Proposed Actions

The following are to be proposed for approval during the stockholders' meeting:

- a. Call to Order;
- b. Certification of Notice and Quorum;
- c. Approval of the Minutes of the Previous Stockholders' Meeting for the year 2021 and including the minutes dated July 05, 2022 with respect to the renewal of the credit facilities with Philippine Bank of Communication;
- d. President's Report to the Stockholders for the Year 2021 and Approval of the Annual Report;
- e. Ratifications of the Acts of the Board and Management;
- f. Election of the Board of Directors to Serve for the Term 2022-2023;
- g. Appointment of External Auditor for the the year 2023;
- h. Appointment of External Counsel for the the year 2023;
- i. Amendment of the Articles of Incorporation by changing the address; and
- j. Other matters; and
- k. Adjournment.

Item 19. Voting Procedures

Article II, Section 5 (a.) and (b.) of the By-laws of the Corporation provides, as follows:

- (a) At each meeting of the stockholders, the holders of a majority of the issued outstanding capital stock of the Corporation having voting powers, who are present via remote communication, shall constitute a quorum for the transaction of business, except, where otherwise provided by the Corporation Code.
- (b) Unless otherwise provided by the Corporation Code, each stockholder shall at every meeting of the stockholders be entitled to one vote per person or by proxy, for each share with voting right held by such stockholder. At all meetings of the stockholder, all matters, except in cases where other provisions is made by the Corporation Code, shall be decided by the vote of stockholders representing majority of the issued and outstanding capital stock present via remote communication and entitled to vote thereat, a quorum being present.
- (c) The holders of common stock are entitled to one vote per share, but in connection with the cumulative voting feature applicable to the election of directors, each stockholder is entitled to as many votes as shall equal the number of shares held by such person at the close of business on record date, multiplied by the number of directors to be elected. A stockholder may cast all of such votes for a single nominee or may apportion such votes among any two or more nominees. In all matters included in the agenda, except, the election of directors, the stockholders are entitled to one vote per share. For the election of directors, the counting will be cumulative. The counting of votes will be done by the Corporate Secretary with the assistance of the

representatives of the Corporation's independent auditor Diaz, Murillo, Dalupan and Co. and Stock Transfer Agent, Banco de Oro Stock Transfer Agency. All votes attaching to the shares owned by stockholders whose proxies were received by the Corporation will be cast in accordance with the instructions given or authority granted under proxies.

Stockholders are given its opportunity to ask questions or clarifications every action before approval of any matter during meeting.

In compliance with SEC Memorandum Circular No. 6, Series of 2020, due to COVID-19 Global Pandemic, the Board of Directors of Philippine Estates Corporation has decided to conduct the annual stockholders' meeting via remote communication. Stockholders can only participate in the meeting by remote communication. Stockholders as of the Record Date who intend to participate or be represented in the meeting should register for the meeting by notifying the Corporation by email at corpsec.phes.asm@gmail.com not later than 16 September 2022 (at 5:00P.M.) and shall first submit a copy of proof of identity, ownership and other certification/information for validation purposes and/or duly accomplished proxy instrument for a representative to the virtual meeting, if applicable. Stockholders as of the Record Date who are interested in casting their votes on any of the matters to be presented during the 2022 ASM must cast their votes on or before 5 October 2022 (at 5:00pm).

Votes may be cast only through online casting of votes/proxies on or before 5 October 2022 (at 5:00P.M.). Stockholders whose shareholdings are lodged with the Philippine Central Depository are reminded to secure a certification of your shareholdings from your respective stockbrokers.

Registered stockholders and confirmed proxies will receive the meeting link and password. Only stockholders who notified the Company of their intention to participate in the virtual meeting and have registered themselves or their proxies will be included in the determination of quorum.

We are not soliciting proxies.

Other Notes to Operations and Financials:

Analysis of material events and uncertainties known to management that would address the past and would have an impact on future operations:

- **Any known trends, demands, commitments, events or uncertainties that will have an impact on the issuer's liquidity;**

At present, the uncertainty that may have a material impact on sales is the economic situation. The seemingly improving economic situation has already translated into a significant buying mood for the real estate market. Overall, there are no contingencies that may affect future operations of the Company. In such eventuality, the resolution of this is dependent to a large extent, on the efficacy of the fiscal measures and other actions.

- **Any event that will trigger direct or contingent financial obligation that is material to the company, including any default or acceleration of an obligation;**

The Company sees no event that will trigger direct or contingent financial obligation that is material to the Company despite of the effect of pandemic COVID-19.

- **All material off-balance sheet transactions, arrangements, obligations (including**

contingent obligations), and other relationships of the company with unconsolidated entities or other persons created during reported period.

There were no material off-balance sheet transactions, agreements, obligations, (including contingent obligations), and other relationship of the Company with unconsolidated entities or other persons created during the reported period.

- **Any material commitments for capital expenditures, the general purpose of such commitments and expected sources of funds of such expenditures.**

Despite the negative economic effects of the pandemic, there will be continued demand for housing as the vaccine rollout is made. Hence, the Company aims to expand its inventory of projects through the acquisition of land in selected areas where economic growth is expected to show resiliency (i.e. Bulacan and Cavite). In this regard, the board of the Company has approved to undertake a Stock Rights Offering ("SRO") to raise capital for land acquisition.

The proceeds will be used to acquire land to be developed by the Company.

- **Any known trends, events or uncertainties (Material Impact on Sales)**

Due to Global Pandemic, there were significant material impacts on sales.

- **Any significant elements of income or loss (from continuing operations)**

The Company considers the measure taken by the government as a non-adjusting subsequent event, which does not impact its financial position and performance as at and for the year ended December 31, 2021. However, it could have a material impact on its 2022 financial results and even years thereafter. Considering the evolving nature of this pandemic, the Company cannot determine at this time the impact to its financial position, performance and cash flows. The Company will continue to monitor the situation.

- **Seasonal aspects that had material effect on the financial condition or results of operation.**

Projects are launched at no particular time of the year depending on several factors such as completion of plans and permits and appropriate timing in terms of market condition and strategies. Development and construction works follow.

- **Internal and external sources of liquidity**

Collections from selling activities provide liquidity. Externally, the Company avails of creditlines offered by banks and other financial institution, private or government. The Company periodically reviews its capital structure and existing obligations.

UPON THE WRITTEN REQUEST OF A STOCKHOLDER, THE REGISTRANT UNDERTAKES TO FURNISH SAID STOCKHOLDER A COPY OF SEC FORM 17-A FREE OF CHARGE, EXCEPT FOR EXHIBITS ATTACHED THERETO WHICH SHALL BE CHARGED AT COST. ANY WRITTEN REQUEST FOR A COPY OF SEC FORM 17-A SHALL BE ADDRESSED AS FOLLOWS:

MANAGEMENT'S REPORT

(Note: Audited Financial Statement and Interim Financial Statement is hereto attached as Annex "A" and made as an integral part hereof.) Conglomerate map showing the relationship between parent company and its subsidiary

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies that have been used in the preparation of these consolidated financial statements are summarized below and in the succeeding pages. The policies have been consistently applied to all the years presented, unless otherwise stated.

Statement of Compliance

The consolidated financial statements of the Group have been prepared in accordance with Philippine Financial Reporting Standards (PFRS) as modified by the application of the following financial reporting standards reliefs issued and approved by the SEC in response to the COVID-19 pandemic.

On December 15, 2020, the SEC has released Memorandum Circular No. 34 Series of 2020, Deferral of Philippine Interpretations Committee Question & Answer (PIC Q&A) No. 2018-12 and IFRIC Agenda Decision on Over Time Transfer of Constructed Goods (PAS 23, Borrowing Cost) For Real Estate Industry, providing relief to the real estate industry by deferring the application of the following provisions of the PIC Q&A and IFRIC interpretation for another period of three years until December 31, 2023.

- a. Accounting for significant financing component discussed in PIC Q&A No. 2018-12-D;
- b. Exclusion of land and uninstalled materials in the determination of percentage of completion (POC) discussed in PIC Q&A No. 2018-12-E; and
- c. IFRIC Agenda Decision on Over Time Transfer of Constructed Goods (PAS 23, *Borrowing Cost*).

The SEC Memorandum Circulars also provided the mandatory disclosure requirements should an entity decide to avail of any relief. Disclosures should include:

- a. the accounting policies applied;
- b. discussion of the deferral of the subject implementation issues in the PIC Q&A;
- c. qualitative discussion of the impact in the financial statements had the concerned application guideline in the PIC Q&A been adopted; and
- d. should any of the deferral options result into a change in accounting policy (e.g., when an entity excludes land and/or uninstalled materials in the POC calculation under the previous standard but opted to include such components under the relief provided by the circular), such accounting change will have to be accounted for under PAS 8, i.e., retrospectively, together with the corresponding required quantitative disclosures.

The Group has availed of the deferral of adoption of the above provisions of PIC Q&A and IFRIC interpretation. Had these provisions and interpretation been adopted, it would have the following impact in the financial statements:

- a. The mismatch between the POC of the real estate projects and right to an amount of consideration based on the schedule of payments explicit in the contract to sell would constitute a significant financing component. Interest income would have been recognized for contract assets and interest expense for contract liabilities using effective interest rate method and this would have impacted retained earnings as at January 1, 2021 and the revenue from real estate sales in 2021. Currently, any significant financing component arising from the mismatch discussed above is not considered for revenue recognition purposes.
- b. The exclusion of land and uninstalled materials in the determination of POC would reduce the POC of real estate projects resulting in a decrease in retained earnings as at January 1, 2021 as well as a decrease in the revenue from real estate sales in 2021. This would result to the land portion of sold inventories together with connection fees, to be treated as contract fulfillment asset.
- c. The IFRIC interpretation concluded that any work-in-progress inventory that the developer intends to sell as it finds suitable customers and, on signing a contract with a customer, will transfer control of the work-in-progress relating to that unit to customer is not a qualifying asset since the asset is ready for its intended sale in its current condition. The interpretation will result in decrease in retained earnings as at January 1, 2021 as well as increase in interest expense in 2021.

Basis of Preparation

The consolidated financial statements have been prepared on a historical cost basis. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique.

Functional and Presentation Currency

The consolidated financial statements are presented in Philippine peso (₱), the Group's functional currency. All amounts are rounded to the nearest peso except when otherwise indicated.

Basis of Consolidation

The consolidated financial statements incorporate the financial statements of the Parent Company and its subsidiary it controls. Control is achieved when the Parent Company has power over the investee, is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to use its power to affect its returns. The Parent Company reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of these three elements of control.

When the Parent Company has less than a majority of the voting rights of an investee, it considers that it has power over the investee when the voting rights are sufficient to give it the practical ability to direct the relevant activities of the investee unilaterally. The Parent Company considers

all relevant facts and circumstances in assessing whether it has power over an investee, including:

- the contractual arrangement with the other vote holders of the investee;
- rights arising from other contractual arrangements; and
- the Group’s voting rights and potential voting rights.

Consolidation of subsidiary begins when the Parent Company obtains control over the subsidiary and ceases when the Parent Company loses control of the subsidiary. Income and expenses of subsidiary acquired or disposed of during the year are included in the consolidated statements of comprehensive income from the date the Parent Company gains control until the date when the Parent Company ceases to control the subsidiary.

The financial statements of the subsidiary are prepared for the same reporting year, using accounting policies that are consistent with those of the Parent Company. Intra-group balances, transactions, income and expenses, and profits and losses resulting from intra-group transactions are eliminated in full in the consolidation.

Changes in the ownership interests in subsidiary that do not result in the loss of control are accounted for as equity transactions.

If the Parent Company loses control over its subsidiary, it derecognizes the related assets (including goodwill), liabilities, non-controlling interest and other components of equity while any resultant gain or loss is recognized in profit or loss.

Composition of the Group

Details of the Parent Company’s subsidiary as at December 31 are as follows:

	Percentage of ownership	
	2021	2020
Mariano Arroyo Development Corporation	100%	100%

The subsidiary’s registered office is at 35th Floor, One Corporate Center Doña Julia Vargas Avenue corner Meralco Avenue Ortigas Center, Pasig City.

Changes in Accounting Policies and Disclosures

The accounting policies adopted are consistent with those of the previous financial years except for the following new and amended PFRS that are mandatorily effective for annual periods beginning on or after January 1, 2021.

COVID-19-related Rent Concessions beyond June 30, 2021 (Amendments to PFRS 16). The amendment provides relief to lessees from applying the PFRS 16 requirement on lease modifications to rent concessions arising as a direct consequence of the COVID-19 pandemic. A lessee may elect not to assess whether a rent concession from a lessor is a lease modification if it meets all of the following criteria: (a) the rent concession is a direct consequence of COVID-19; (b) the change in lease payments results in a revised lease consideration that is substantially the same as, or less than, the lease consideration immediately preceding the change; (c) any reduction in lease payments affects only payments originally due on or before June 30, 2022; and (d) there is no substantive change to other terms and conditions of the lease.

A lessee that applies this practical expedient will account for any change in lease payments resulting from the COVID-19 related rent concession in the same way it would account for a

change that is not a lease modification, i.e., as a variable lease payment.

The amendment is effective for annual reporting periods beginning on or after April 1, 2021. Early adoption is permitted. The Group adopted the amendments beginning April 1, 2021. As there are no rent concessions granted to the Group as a lessee, these amendments had no impact on the consolidated financial statements

Interest Rate Benchmark Reform – Phase 2 (Amendments to PFRS 9, PFRS 7, PFRS 4 and PFRS 16). The amendments provide the following temporary reliefs which address the financial reporting effects when an interbank offered rate (IBOR) is replaced with an alternative nearly risk-free interest rate (RFR):

- Practical expedient for changes in the basis for determining the contractual cash flows as a result of IBOR reform
- Relief from discontinuing hedging relationships
- Relief from the separately identifiable requirement when an RFR instrument is designated as a hedge of a risk component.

The Group shall also disclose information about: (a) the nature and extent of risks to which the entity is exposed arising from financial instruments subject to IBOR reform, and how the entity manages those risks; and (b) their progress in completing the transition to alternative benchmark rates, and how the entity is managing that transition.

The amendments are effective for annual reporting periods beginning on or after January 1, 2021 and apply retrospectively. These amendments had no impact on Group's consolidated financial statements

New Accounting Standards, Interpretations and Amendments to Existing Standards Effective Subsequent to January 1, 2021

Standards issued but not yet effective up to the date of the Group's consolidated financial statements are listed below. This listing of standards and interpretations issued are those that the Group reasonably expects to have an impact on disclosures, financial position or performance when applied at a future date. The Group intends to adopt these standards when they become effective.

Reference to the Conceptual Framework (Amendments to PFRS 3). Minor amendments were made to PFRS 3, Business Combinations to update the references to the Conceptual Framework for Financial Reporting and add an exception for the recognition of liabilities and contingent liabilities within the scope of PAS 37, Provisions, Contingent Liabilities and Contingent Assets and Philippine Interpretation IFRIC 21, Levies. The amendments also confirm that contingent assets should not be recognized at the acquisition date. The amendments are effective for annual periods beginning on or after January 1, 2022.

Property, Plant and Equipment: Proceeds before Intended Use (Amendments to PAS 16). The amendments to PAS 16, Property, Plant and Equipment prohibits an entity from deducting from the cost of an item of property, plant and equipment any proceeds received from selling items produced while the entity is preparing the asset for its intended use. It also clarifies that an entity is 'testing whether the asset is functioning properly' when it assesses the technical and physical performance of the asset. The financial performance of the asset is not relevant to this assessment. Entities must disclose separately the amounts of proceeds and costs relating to

items produced that are not an output of the entity's ordinary activities. The amendments are effective for annual periods beginning on or after January 1, 2022.

Onerous Contracts – Cost of Fulfilling a Contract (Amendments to PAS 37). The amendment to PAS 37 clarifies that the direct costs of fulfilling a contract include both the incremental costs of fulfilling the contract and an allocation of other costs directly related to fulfilling contracts. Before recognizing a separate provision for an onerous contract, the entity recognizes any impairment loss that has occurred on assets used in fulfilling the contract.

The above amendments are effective for annual periods beginning on or after January 1, 2022. The Group will apply these amendments to contracts for which it has not yet fulfilled all its obligations at the beginning of the annual reporting period in which it first applies the amendments.

Annual Improvements to PFRS Standards 2018–2020

- PFRS 9, *Financial Instruments* – clarifies which fees should be included in the 10% test for derecognition of financial liabilities.
- PFRS 16, *Leases – Lease Incentives* – amendment of illustrative example 13 to remove the illustration of payments from the lessor relating to leasehold improvements. The objective of the amendment is to avoid any potential confusion regarding the treatment of lease incentives because of how the requirements for lease incentives are illustrated.
- PFRS 1, *First-time Adoption of Philippine Financial Reporting Standards* – allows subsidiaries that have measured their assets and liabilities at carrying amounts recorded in their parent's books to also measure any cumulative translation differences using the amounts reported by the parent. This amendment will also apply to associates and joint ventures that have taken the same PFRS 1 exemption.
- PAS 41, *Agriculture, Taxation in Fair Value Measurements* – removal of the requirement for entities to exclude cash flows for taxation when measuring fair value under PAS 41. This amendment is intended to align with the requirement in the standard to discount cash flows on a post-tax basis.

The annual improvements are effective for annual periods beginning on or after January 1, 2022.

Deferred Tax Related to Assets and Liabilities Arising from a Single Transaction (Amendments to PAS 12). The amendments narrow the scope of the initial recognition exception under PAS 12, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences. The amendments also clarify that where payments that settle a liability are deductible for tax purposes, it is a matter of judgement (having considered the applicable tax law) whether such deductions are attributable for tax purposes to the liability recognized in the financial statements (and interest expense) or to the related asset component (and interest expense). The annual improvements are effective for annual periods beginning on or after January 1, 2023.

An entity intends to apply the amendments to transactions that occur on or after the beginning of the earliest comparative period presented for annual reporting periods on or after January 1, 2023. The amendments are not expected to have a material impact on the Parent Company.

Definition of Accounting Estimates (Amendments to PAS 8). The amendments introduce a new definition of accounting estimates and clarify the distinction between changes in accounting estimates and changes in accounting policies and the correction of errors. Also, the amendments clarify that the effects on an accounting estimate of a change in an input or a

change in a measurement technique are changes in accounting estimates if they do not result from the correction of prior period errors.

An entity applies the amendments to changes in accounting policies and changes in accounting estimates that occur on or after January 1, 2023 with earlier adoption permitted. The amendments are not expected to have a material impact on the Group's consolidated financial statements.

Disclosure of Accounting Policies (Amendments to PAS 1 and PFRS Practice Statement 2). The narrow-scope amendments PAS 1, Presentation of Financial Statements require entities to disclose material accounting policy information instead of significant accounting policies. The amendments also clarify the following: (1) accounting policy information may be material because of its nature, even if the related amounts are immaterial; (2) accounting policy is material if users of an entity's financial statements would need it to understand other material information in the statements; and (3) if an entity discloses immaterial accounting policy information, such information shall not obscure material accounting policy information.

Further, the amendment provides several paragraphs to explain how an entity can identify material accounting policy information and to give examples of when accounting policy information is likely to be material. In addition, PFRS Practice Statement 2 has been amended by adding guidance and examples to explain and demonstrate the application of 'four-step materiality process' to accounting policy information in order to support the amendments to PAS 1.

The amendment is applied prospectively. The amendment is effective for annual periods beginning on or after January 1, 2023, with earlier application permitted. Once the entity applies the amendments to PAS 1, it is also permitted to apply the amendments to PFRS Practice Statement 2.

Classification of Liabilities as Current or Non-current (Amendments to PAS 1). The amendments clarify paragraphs 69 to 76 of PAS 1, *Presentation of Financial Statements*, to specify the requirements for classifying liabilities as current or non-current. The amendments clarify:

- What is meant by a right to defer settlement
- That a right to defer must exist at the end of the reporting period
- That classification is unaffected by the likelihood that an entity will exercise its deferral right
- That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification

The amendments are effective for annual reporting periods beginning on or after January 1, 2023 and must be applied retrospectively. However, in November 2021, the International Accounting Standards Board (IASB) tentatively decided to defer the effective date to no earlier than January 1, 2024. The Parent Company is currently assessing the impact the amendments will have on current practice.

PFRS 17, Insurance Contracts. PFRS 17 is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Once effective, PFRS 17 will replace PFRS 4, Insurance Contracts. This new standard on insurance contracts applies to all types of insurance contracts (i.e., life, non-life, direct insurance and re-insurance), regardless of the type of entities that issue them, as well as to certain guarantees and financial instruments with discretionary participation features. A few scope exceptions will apply. The overall objective of PFRS 17 is to provide an accounting model for insurance

contracts that is more useful and consistent for insurers. In contrast to the requirements in PFRS 4, which are largely based on grandfathering previous local accounting policies, PFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects.

The core of PFRS 17 is the general model, supplemented by:

- A specific adaptation for contracts with direct participation features (the variable fee approach)
- A simplified approach (the premium allocation approach) mainly for short-duration contracts

On December 15, 2021, the FRSC amended the mandatory effective date of PFRS 17 from January 1, 2023 to January 1, 2025. This is consistent with Circular Letter No. 2020-62 issued by the Insurance Commission which deferred the implementation of PFRS 17 by two (2) years after its effective date as decided by the IASB.

PFRS 17 is effective for reporting periods beginning on or after January 1, 2025, with comparative figures required. Early application is permitted. The new standard is not applicable to the Parent Company since it has no activities that are predominantly connected with insurance or issue insurance contracts.

Deferred Effectivity

PFRS 10, *Consolidated Financial Statements* and PAS 28, *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture* (Amendments). The amendments address the conflict between PFRS 10 and PAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that a full gain or loss is recognized when a transfer to an associate or joint venture involves a business as defined in PFRS 3. Any gain or loss resulting from the sale or contribution of assets that does not constitute a business, however, is recognized only to the extent of unrelated investors' interests in the associate or joint venture. On January 13, 2016, the FRSC deferred the original effective date of April 1, 2016 of the said amendments until the IASB has completed its broader review of the research project on equity accounting that may result in the simplification of accounting for such transactions and of other aspects of accounting for associates and joint ventures.

The Group has not early adopted the previously mentioned new, amended and improved accounting standards and interpretations. The Group continues to assess the impact of the above new, amended and improved accounting standards and interpretations that are effective subsequent to January 1, 2021 on its consolidated financial statements in the period of initial application. Additional disclosures required by these amendments will be included in the consolidated financial statements when these amendments are adopted.

Audited Financial Statements and Interim Financial Statements

There were no disagreements with the former and present accountants and auditors on any matter of accounting and financial disclosures.

Reconciliation of retained earnings available for dividend declaration.

NATURE AND SCOPE OF BUSINESS OF THE REGISTRANT

The Company was incorporated on May 30, 1983 formerly “Philippine Cocoa Estates Corporation” registered with Securities and Exchange Commission (SEC) under Registration No. 112978.

The Company is now known as Philippine Estates Corporation, currently engaged in a realty estate development business focusing on high/low end residential including horizontal mass housing developments and medium rise condominiums.

The primary goal and objective of the Company is to produce a quality housing and with a corporate vision of becoming a world-class real estate developer utilizing state-of-the-art design and technology to build projects with the highest quality and value.

The Company’s real estate business is located in different emerging and high growth areas in Luzon and Visayas namely, Iloilo, Cebu and other cities located in Metro Manila. The Company is also expanding its development mass housing Projects in a progressive areas located outside Luzon particularly Calabarzon and Bulacan areas.

The Company is majority owned and controlled by The Wellex Group, Inc., and its related parties including the Management.

(2) Business Issuer:

With the acquisition of real properties by virtue of its agreement with Rexlon Realty Group, Inc., Recovery Real Estate Corporation, Ropeman International Corporation, The Wellex Group, Inc. and Pacific Rehouse Corporation, the Company immediately conducted a study to determine the “highest and best use” of its real estate holdings for the purpose of enhancing their value and maximizing the returns to the stockholders. Based on the study conducted, the following are the projects were undertaken by the Company:

COMPLETED PROJECTS:

1. *Pearl of the Orient Tower.*

A 42-storey office-residential-recreational condominium tower in Roxas Boulevard, Manila.

2. *Metrotech Industrial Park Valenzuela (formerly; Plastic City Industrial Park).*

A 30-hectare, modern industrial park in the booming city of Valenzuela.

3. *Pacific Grand Villas Phase I.*

The first phase of the successful Mediterranean-inspired residential community in the highly urbanized city of Lapu-lapu, Cebu.

4. *Pacific Grand Villas Phase II.*

The second completed project in Lapu-lapu City, Cebu, with bigger lot cuts than Phase I and new house models.

5. *Pacific Grand Villas Phase III.*

The third in the series of thriving Pacific Grand Villas communities in Lapu-lapu City, Cebu.

6. *Chateaux Geneva.*

A 10-hectare Swiss-Victorian themed community in the prime district of Jaro, Iloilo City.

7. *Pacific Grand Villas Phase IV-A & B.*

Phase 4 of Pacific Grand Villas features some 356 prime residential lot units. In this project we introduced at least four more new house models to satisfy the evolving demands of the market. This project caters also to an international blend of buyers, just like the earlier phases, making Pacific Grand Villas an international community that meets global standards and lifestyle.

8. *Pacific Grand Townhomes Phase I*

Pacific Grand Townhomes is a middle-class Victorian-themed townhouse project located in Lapu-Lapu City. It boasts of the exclusivity of a pocket community, consisting of only 43 units of elegantly designed houses. This stylish community is proximate to private and public institutions, recreational areas, schools, resorts, business and trade centers. It is right across the site where Wellford Residences – Mactan will rise.

9. *Costa Smeralda*

The second of our exclusive residential communities in Iloilo City, Costa Smeralda is themed after the famed Italian coastal resorts. Offering 395 units, we introduced in this

village for trendy yet sophisticated house designs of varying floor areas, blending form and function to perfectly suit the requirements of discriminating buyers. Inventory in this development is almost exhausted as well.

ONGOING / CURRENT PROJECTS:

- ***Wellford Homes @ Jaro Grand Estates (Phase 3) – Parcel A***

This project is our third residential community in Iloilo City. The house and lot packages are mainly designed for homebuyers inclined for economy, maximizing value-for-money. Consisting of about 1.7 hectares, the initial offering is an American inspired two bungalow-type house model. These single-level houses are very much suited also for senior citizens and retirees. The project was launched in November 2016, with the land development and house construction almost completed.

- ***Wellford Homes – Malolos***

Wellford Homes is a residential development with an area of approximately 6.7 hectares located in Barangay Longos, Malolos City, Bulacan. This horizontal development is American inspired. Housing design reflects the suburban feel with the American ambiance reflected even in the design of the community facilities and amenities. The subdivision is designed to provide generous areas for roads and open spaces, which accounts for nearly 42% of the total developable area. It is an affordable and quality development that offers a master planned community with a total of 554 residential units with two-storey houses and lot-only properties envisioned to be completed by 4Q 2026.

- ***Wellford Residences – Mactan***

As the Company's answer to the housing backlog in the economic sector in the area, PHES launched Wellford Residences-Mactan. WR-Mactan is a two-tower medium rise condominium project in one of the Company's prime and highly accessible properties in Mactan, Cebu. Located in Barangay Suba-Basbas in the City of Lapu-Lapu, the project will be composed of 197 residential units and 38 parking spaces. It is envisioned to be completed by 4Q 2024

PROJECTS IN THE PIPELINE

- 1) ***Wellford Homes @ Jaro Grand Estates (Phase 3) – Parcel B***

In line with the Company's aim of expanding the existing American-inspired subdivision project Wellford Homes I located at Jaro, Iloilo, the Company is expected to launch Wellford Homes II (WHII) by 2022. WHII will be located in an area of around 9.0 hectares and will offer a total of 440 units. It is envisioned to be completed by 2Q 2025. It will offer two (options) of a two (2)-storey single detached unit with gross floor area ranging from 63 to 73 sqm. The Company has started its application for a License to Sell (LTS) with the Department of Human Settlements and Urban Development (DHSUD).

2) *Pacific Grand Villas Phase 5*

A follow-up to the highly successful Pacific Grand Villas series in Lapu-Lapu City, Mactan, Cebu, Phase 5 is an expansion of the village with modern design theme. The master-planned community will offer larger lot cuts and spacious houses. Situated in the main entrance avenue by the commercial area, prime sections of this phase will offer specially-designed home-buildings, which will be sold together with a luxurious housing component in this low density phase. The project will offer a total of 204 units and is envisioned to be completed by 2Q 2025.

3) *Wellford Homes Balagtas*

Wellford Homes Balagtas, is one of the upcoming subdivision projects of the Company to be situated in the province of Bulacan with Wellford Homes Sta. Maria and the on-going Wellford Homes Malolos. It will be a residential project that offers a master planned community with a total of 710 residential units in a 10-hectare land, envisioned to be completed by 1Q 2028. Prospective buyers will have three (3) options to choose from, namely, 2-Storey Single Attached, Townhouse, and Duplex Bungalow model units with floor areas ranging from 42 to 72 sq.m.

4) *Wellford Homes Sta. Maria Phase 1*

This is one of the upcoming subdivision projects of the Company to be situated in the province of Bulacan with Wellford Homes Balagtas and the on-going Wellford Homes Malolos. It will be a medium cost development in a 16.0- hectare land located in Sta. Maria, Bulacan, which will offer a total of 1,140 units. The project will offer three (3) products, which are a 2-storey single attached unit, a townhouse, and a lot-only unit. It is envisioned to be completed by 2027.

5) *Wellford Homes Sta. Maria Phase 2*

This will be the follow-up project to Wellford Homes Sta. Maria Phase 1. Like the 1st phase, this project will be a medium cost development situated in an 18.50-hectare land located in Sta. Maria, Bulacan. It will offer a total of 1,318 units, envisioned to be completed by 2029. The project will offer three (3) products, which are a 2-storey single attached unit, a townhouse, and a lot-only unit.

6) *Winfields Village Tanza*

This will be the first subdivision development of the Company in the province of Cavite, to be situated in a 19.70- hectare land. It will be a residential project with a total of 1,174 units, envisioned to be completed by 2030. It will feature three (3) options for a 2-storey single attached unit with a typical gross floor area ranging from 58 to 85 sqm. Prospective buyers will have three (3) options of a 2-storey residence to choose from. It will feature a typical lot area of 120 square meters with floor areas ranging from 73 to 85 sqm.

7) *Wellford Homes @ Jaro Grand Estates (Phase III) – Parcel C*

This project will be a follow-up project to Parcel B. It will be located in a 3.9-hectare land and will offer a total of 231 units. It is envisioned to be completed by 2Q 2025. It will offer

three (3) model units that are two (2)-storey single detached and duplex bungalow with gross floor area ranging from 42 to 73 sq. m.

8) *Wellford Homes @ Jaro Grand Estates (Phase III) – Parcel D*

This project will also be a follow-up project to Parcel B. It will be located in a 3.9-hectare land and will offer a total of 337 units. It is envisioned to be completed by 2Q 2026. It will offer three (3) model units that are two (2)- storey single detached and duplex bungalow with gross floor area ranging from 42 to 73 sq. m.

9) *Winfields Towncenter*

This will be a combination of multiple medium rise condominiums to be situated in a 4.7-hectare land in Lapu-Lapu City, Cebu. It will be comprised of 12 buildings that will offer a total of 970 residential units and 171 parking spaces. It is envisioned to be completed by 3Q 2030.

FUTURE PROJECT(S)

1. Jaro Grand Estates - South

Commercial-Institutional / Mixed-use estate strategically located just 3.3 kilometers away from Jaro Plaza, The Jaro Grand Estates (JGE) is a 100-hectare master-planned community near Iloilo City's major hubs, including colleges and universities, commercial and business areas, hospitals and government centers, air and sea ports. It integrates several land uses into a singular development. JGE is divided into 2 major 45-hectare enclaves: The Jaro Grand Estates - North, comprising of at least five themed residential villages upon full development, and The Jaro Grand Estates -South which is master-planned for commercial mixed-use developments. When completed, the 40-hectare plus JGE - South is envisioned to feature its own commercial and restaurant strips, office and business centers, education facilities, and a hotel and tourist hub

FINANCIAL AND OTHER INFORMATION:

a.) Information Required:

(1) The Audited Financial Statement as of 31 December 2021 are attached hereto. The notes to Financial Statements, as well as Statement of Management Responsibility, and schedules required under Part IV(C) OF RULE 68 is included in the Annual Report(Form 17-A) on **Annex 1.**

Also attached hereto are the Interim Financial Statements as of June 30, 2022 being also required under PART IV(C) OF RULE 68 (SEC Form 17-Q).

(2) MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND PLAN/RESULTS OF OPERATIONS.

Second Quarter of 2022

The Performance of the Company

For the 2Q 2022, the Company was able to post consolidated net sales of ₱ 38.42M thus registering a decrease of ₱20.13M or 34.38% compared to the Sales for same period in 2021 of ₱ 58.55M.

Realized Gross Profit increased by 12.80% or ₱2.37M from ₱20.93M this 2Q 2022 compared to ₱18.56M in 2Q 2021. Consequently, Net Income before tax decreased to ₱0.388M compared from ₱0.476M in 2Q 2021, a decrease of 18.35% or ₱0.087M. This was primarily due to the lingering effect of the pandemic and typhoon Odette, which hit the areas where our projects are located at, Cebu and Iloilo.

Comparative Top Key Performance Indicators of the Company:

Management evaluates the Company's performance as it relates to the following:

- a. Sales – The Company gauges its performance by determining the Return on Sales (net income after tax over the net sales). It indicates net profitability of each peso of sales.
- b. Accounts Receivable – The Company assesses the efficiency in collecting receivables and in managing of credit by determining the past due ratio thru the aging of receivables.
- c. Gross Profit Margin – Measures effectiveness of pricing and control of project development cost. This is derived by dividing Gross Profit over Net Sales.
- d. Working Capital – The Company's ability to meet obligations is measured by determining Current Assets over Current Liabilities. Working Capital turnover is calculated by dividing Sales over Average Net Working Capital.

Variance Analysis – Another tool that measures efficiency on how the actual sales were attained via avis forecasted sales.

<u>INDICATOR</u>	<u>Q2 2022</u>	<u>Q2 2021</u>
Return on sales	1.01%	0.81%
Past due ratio	5.70%	5.20%

Gross Profit rate	48.31%	48.44%
Working Capital Turnover	0.05	0.06

Financial Condition:

The Company maintained its Financial Position as its total assets stood at P2.10B. Current ratio registered at 4.07:1. Current assets reached P1.44B while current liabilities amounted only to P0.35B. Debt –to- equity ratio stood at 0.38:1 The Balance Sheet shows that accounts are indicators of positive liquidity condition. Hereunder are the significant or material changes in the Balance Sheet accounts as of June 30, 2022.

Causes for material changes (5% or more) from period to period:

- a. Cash – the decrease of 97.03% was basically attributable to the payments of prior years’ payables and payments for the purchased raw land.
- b. Real estate inventories, net - the increase of 96.82% was due to acquired new raw land
- c. Prepayments and Other Assets – the increase of 892.04% was due to increase in Deferred VAT Input from the purchased raw land to be amortized over 5 years.
- d. Non-current Trade Receivables - the decrease of 69.92% was due to improved collections on sales and restatement of old accounts.
- e. Other Noncurrent Assets - the increase of 12.58% was due to increase in Refundable Deposits to MORE ELECTRIC AND POWER CORPORATION for the extension of electrical distribution facilities.
- f. Deferred Gross Profit - the decrease of 10.36% was the result of recognition of realized gross profit based on percentage of completion done for the quarter.
- g. Customers Deposits – the decrease of 27.50% was due to increase in reported sales from the reservations made in prior’s year.
- h. Retention payable and refundable bonds - the increase of 6.28% pertains to the 10% retained payment of each progress billing of contractors to be paid until full completion of the contract of on-going projects

Results of Operation for 2021 vs 2020

In 2021, the Company was able to post a consolidated net sales of ₱ 239.71M compared to ₱217.94M sales of 2020 showing an increase of 9.99% or ₱ 21.77M.

Realized Gross Profit increased by 6.27% or ₱4.68M from ₱79.34M this 2021 compared to ₱74.66M in 2020. While, Net Income after Tax increased to ₱11.53M compared from ₱0.54M in 2020, an increase of 2013.24% or ₱10.98M. This was primarily due to a decrease in deferred tax by -549.52% or ₱-11.83M from ₱2.15M in 2020 to ₱-9.68M in 2021.

The Company’s current ratio registered at 3.78:1. Current Assets reached ₱ 1.36B while Current Liabilities registered at ₱ 0.36B. Debt-to-equity ratio registered at 0.39:1. The

Balance Sheet shows accounts indicative of positive liquidity condition. Total assets registered at ₱ 2.05B.

Comparative Top Key Performance Indicators of the Company:

Management evaluates the Company’s performance as it relates to the following:

- a. Sales – The Company gauge its performance by determining the return on sales (net income after tax over the net sales). It indicates net profitability of each peso of sales.
- b. Accounts Receivable – The Company assesses the efficiency in collecting receivables and in managing of credit by determining the past due ratio thru the aging of receivables.
- c. Gross Profit Margin – Measures effectiveness of pricing and control of project development cost. This is derived by dividing gross profit over net sales.
- d. Working Capital – The Company’s ability to meet obligations is measured by determining current assets over current obligations. Working capital turnover is calculated by dividing Sales over Ave. Net Working Capital.
- e. Variance Analysis – Another tool that measures efficiency on how the actual sales were attained via avis forecasted sales.

<u>INDICATOR</u>	<u>2021</u>	<u>2020</u>
Return on Sales	3.25%	3.17%
Past Due Ratio	5%	6%
Gross Profit Rate	54.73%	58.67%
Working Capital Turnover	0.25	0.28
Sales Projection	614M	420M
Sales Variance	-60.96%	-48.11%

Financial Condition:

Causes of material changes from period to period of financial statements:

- a. Cash – the increase of 2186.89% was basically attributable to the proceeds of working capital loans from Luzon Development Bank, Qwick Financing Inc. and Philippine Bank of Communications and the net proceeds from the Stock Rights Offer.
- b. Current Trade and Other Receivables – the increase of 7.65% was due to sales from Wellford Homes - Malolos.

- c. Prepayments and Other Current Assets - the decrease of 42.17% was due to application of creditable withholding tax for the year's income tax due per Income Tax Return.
- d. Trade and other receivables (net of current portion) - the decrease of 10% was due to write off of old accounts.
- e. Advances to related parties - the increase of 105.57% was due to interest charge based on the Promissory Note.
- f. Property and equipment (net) - the decrease of 7.16% was due to depreciation of fixed assets.
- g. Deferred Tax Assets - the decrease of 13.94% was due to the reversal of allowance on expected credit loss.
- h. Other Noncurrent Assets – the increase of 16.37% was due to additional security deposits on the renewal of lease and utility deposits.
- i. Accounts payable and other liabilities - the increase of 20.31% was due to additional security deposits on the renewal of lease and utility deposits
- j. Deferred Gross Profit – the increase of 7.64% was due to sales reported for the period which are not yet completed as at reporting date and to be realized thereafter, based on the percentage of completion of the real estate inventories sold
- k. Lease Liabilities - the decrease of 29.04% was due to the amortization recognized on the right-of-use-assets.
- l. Customers' Deposits – the decrease of 22.41% was due to increase in reported sales from the reservations made in prior's year.
- m. Retention Payable and Refundable Bonds - the decrease of 8.76% was due to the payment of retention payable to contractors.
- n. Retirement Benefits Obligation - the decrease of 10.49% was due to decrease in present value of the retirement benefits obligation.
- o. Deferred Tax Liabilities – the decrease of 15.88% was due to the decrease of excess of financial realized gross profit over the taxable realized gross profit.
- p. Capital stock - the increase of 25.84% was due from the proceeds of stock rights offer.
- q. Remeasurement Gain on Retirement Benefits- the increase of 111.66% was due to an increase of amounts recognized in OCI for the year's actuarial valuation

Results of Operation for 2020 vs 2019

In 2020, the Company was able to post a consolidated net sales of P 217.94M compared to P FINANCIAL CONDITION ANDPLAN/RESULTS OF OPERATIONS 212.59M sales of 2019 showing an increase of 2.51% or P 5.35M.

Realized Gross Profit decreased by -30.96% or ₱-33.49M from ₱74.66M this 2020 compared to ₱108.14M in 2019. However, Net Income after Tax increased to ₱0.55M compared from ₱-0.97M in 2019, an increase of 156.40% or ₱1.51M. This was primarily due to a decrease in current tax of -76.61% or ₱-13.82M from ₱18.04M in 2019 to ₱4.22M in 2020.

The Company's current ratio registered at 3.67:1. Current Assets reached P 1.24B while Current Liabilities registered at P 0.34B. Debt-to-equity ratio registered at 0.52:1. The Balance Sheet shows accounts indicative of positive liquidity condition. Total assets registered at P 1.65B.

Gross Profit Rate	58.67%	54.82%
Working Capital Turnover	0.28	0.13
Sales Projection	420M	412M
Sales Variance	-48.11%	-48.40%

Financial Condition:

Causes of material changes from period to period of financial statements:

- a. Cash – the increase of 29.47% was basically attributable to the proceeds of working capital loans from Luzon Development Bank.
- b. Current Trade and Other Receivables – the increase of 6.06% was due to sales from Wellford Homes - Malolos.
- c. Prepayments and Other Current Assets - the decrease of 26.45% was due to application of creditable withholding tax for the year's income tax due per Income Tax Return.
- d. Financial Asset - the increase of 300% was due to an additional investment in Waterfront Manila Premier Development, Inc.
- e. Deferred Tax Assets - the increase of 25.04% was due to the effects of CREATE a newly approved corporate income tax rate.
- f. Other Noncurrent Assets – the increase of 11.21% was due to additional security deposits on the renewal of lease and utility deposits.
- g. Borrowings – the increase of 37.60% was the result of loans availed from Luzon Development Bank for working capital.
- h. Lease Liabilities - the increase of 78.75% was due to the additional right-of-use asset.
- i. Customers' Deposits – the increase of 66.41% was due to an increase in sales reservation fees.
- j. Retention Payable and Refundable Bonds - the increase of 10.52% pertains to the 10% retained payment of each progress billing of contractors to be paid until full completion of the contracts of all on-going project
- k. Retirement Benefits Obligation - the increase of 19.98% was due to an expense recognized based on actuarial valuation for 2020.
- l. Deferred Tax Liabilities – the increase of 5.61% was due to the effects of CREATE a newly approved corporate income tax rate.
- m. Remeasurement Gain on Retirement Benefits- the increase of 6.41% was due to an increase of amounts recognized in OCI for the year's actuarial valuation

Results of Operation for 2019 vs 2018

In 2019, the Company was able to post a consolidated net sales of ₱ 212.60M compared to ₱306.91M sales of 2018 showing a decrease of -30.73% or ₱94.31M.

The Company's current ratio registered at 3.17:1. Current Assets reached ₱ 0.94B while Current Liabilities registered at ₱ 0.30B. Debt-to-equity ratio registered at 0.47:1. The Balance Sheet shows accounts indicative of positive liquidity condition. Total assets registered at ₱ 1.60B.

Comparative Top Key Performance Indicators of the Company:

Management evaluates the Company's performance as it relates to the following:

- a. Sales – The Company gauge its performance by determining the return on sales (net income after tax over the net sales). It indicates net profitability of each peso of sales.
- b. Accounts Receivable – The Company assesses the efficiency in collecting receivables and in managing of credit by determining the past due ratio thru the aging of receivables.
- c. Gross Profit Margin – Measures effectiveness of pricing and control of project development cost. This is derived by dividing gross profit over net sales.
- d. Working Capital – The Company's ability to meet obligations is measured by determining current assets over current obligations. Working capital turnover is calculated by dividing Sales over Ave. Net Working Capital.
- e. Variance Analysis – Another tool that measures efficiency on how the actual sales were attained via a vis forecasted sales.

INDICATOR	2019	2018
Return on Sales	4.83%	11.02%
Past Due Ratio	5%	5%
Gross Profit Rate	54.82%	57.44%
Working Capital Turnover	0.13	0.33
Sales Projection	412M	489M
Sales Variance	-48.40%	-37.42%

Financial Condition:

Causes of material changes from period to period of financial statements:

- a. Cash – the decrease of 29.85% was basically attributable to the payments of prior years' payables and current payables incurred particularly on the newly set up sales office in Malolos.
- b. Current Trade and Other Receivables – the decrease of 8.73% was due to the slump in sales.

- c. Real Estates Inventories – the decrease of 38.95% was due to a reclassification of raw land inventory to advances to affiliates.
- d. Prepayments and Other Current Assets - the decrease of 32.85% was due to application of creditable withholding tax for the year's income tax due.
- e. Non-Current Trade and Other Receivables – the increase of 34.82% was due to an increase of old accounts from external customers
- f. Advances to Related Parties – the increase of 104.71% was due to a reclassification of raw land inventory to advances to affiliates.
- g. Deferred Tax Assets – the increase of 16.40% was due to higher corporate incometax paid per ITR than on the tax due per financial statements for the year.
- h. Accounts Payable and Other Liabilities – the increase of 19.38% was due to an increase of advance payments made by the customers for their titling fees.
- i. Borrowings – the decrease of 24.26% was due to payment of matured loans.
- j. Customers' Deposits – the decrease of 49.62% was due to increase in reported sales from the reservations made in prior's year.
- k. Retirement Benefits Obligation - the increase 28.79% was due to an expense recognized based on actuarial valuation for 2019.
- l. Deferred Tax Liabilities – the decrease of 10.35% was due to excess of taxable realized gross profit over financial realized gross profit.
- m. Remeasurement Gain on Retirement Benefits- the decrease 43.04% was due to an increase of changes in financial assumptions for the year's actuarial valuation

Results of Operation for 2018 vs 2017

In 2018, the Company was able to post a consolidated net sales of ₱ 306.91M compared to ₱370.96M sales of 2017 showing a decrease of 17.27% or ₱ 64.05M.

The Company's current ratio registered at 4.09:1. Current Assets reached ₱ 1.25B while Current Liabilities registered at ₱ 0.31B. Debt-to-equity ratio registered at 0.49:1. The Balance Sheet shows accounts indicative of positive liquidity condition. Total assets registered at ₱ 1.62B.

Comparative Top Key Performance Indicators of the Company:

Management evaluates the Company's performance as it relates to the following:

- a. Sales – The Company gauge its performance by determining the return on sales (net income after tax over the net sales). It indicates net profitability of each peso

of sales.

- b. Accounts Receivable – The Company assesses the efficiency in collecting receivables and in managing of credit by determining the past due ratio thru the aging of receivables.
- c. Gross Profit Margin – Measures effectiveness of pricing and control of project development cost. This is derived by dividing gross profit over net sales.
- d. Working Capital – The Company’s ability to meet obligations is measured by determining current assets over current obligations. Working capital turnover is calculated by dividing Sales over Ave. Net Working Capital.
- e. Variance Analysis – Another tool that measures efficiency on how the actual sales were attained via a vis forecasted sales.

<u>INDICATOR</u>	<u>2018</u>	<u>2017</u>
Return on Sales	5.53%	5.30%
Past Due Ratio	5%	17%
Gross Profit Rate	57.44%	60.46%
Working Capital Turnover	0.33	0.46
Sales Projection	489M	500M
Sales Variance	-37.42%	-25.81%

Financial Condition:

Causes of material changes from period to period of financial statements:

- a. Cash – the increase of 38.46% was basically attributable to improved collection on sales, and proceeds from loans.
- b. Current Trade Receivables – the increase of 27.85% was due to new sales recorded during the year.
- c. Non-Current Trade and Other Receivables – the decrease of 65.11% was due to improved collections on sales and restatement of old accounts.
- d. Deferred Tax Assets – the decrease of 64.69% was due to the application Net Operating Loss Carry-Over (NOLCO) and Minimum Corporate Income Tax (MCIT) for the year.
- e. Accounts Payable and Other Liabilities – the increase of 11.48% was due to increase in payable to suppliers on credit terms.
- f. Deferred Gross Profit – the increase of 32.99% was due to sales reported for the period which are not yet completed as at reporting date and to be realized thereafter, based on the percentage of completion of the real estate inventories sold.
- g. Customers’ Deposits – the decrease of 21.21% was due to increase in reported sales that has not been booked as sales due to its low payment milestone.

- h. Advances to/from Related Parties – the increase of 5.00% was due to advances to related parties.
- i. Deferred Tax Liabilities – the increase of 10.53% was due to excess of financial realized gross profit over taxable realized gross profit.
- j. Retirement Benefits Obligation - the increase 29.64% was due to the expense recognized for the year based on valuation for 2018.

PART I – FINANCIAL INFORMATION

Item 1. Financial Statements

The Quarterly Financial Statements of the Company for the period ending June 30, 2022 are incorporated herein by reference and attached as an integral part of this Quarterly Report.

Statement of Compliance

The Financial Statements of the Company have been prepared in accordance with Philippine Financial Reporting Standards (PFRS) issued by the Accounting Standards Council (ASC).

Earnings per Share

Basic Earnings per share is determined by dividing the Net Income by the weighted average number of shares issued and subscribed during the period.

Financial Information

- a. The management maintains the same system of accounting policies and methods of computation in the Interim Financial Statements.
- b. There were no changes in accounting estimates of amounts reported in interim periods of current financial year or even in prior financial years
- c. There were no issuances, repurchases and repayments of equity securities
- d. There were no changes in the composition of the issuer during the interim period i.e. Business Combinations, Acquisitions, or Disposal of Subsidiaries and Long-term Investments, Restructuring and Discontinuing operations
- e. There were no dividends declared and paid on the Company's Common Equity.
- f. There have been no material events that happened subsequent to the interim period that needs disclosure herein.
- g. The Company is contingently liable for existing lawsuits and claims from third parties arising from the ordinary course of business. Management believes that the ultimate liability for the abovementioned lawsuits and claims, if any, would not be material in relation to the Financial Position and Operating Results of the company's operations.

Item 2. Management’s Discussion and Analysis of Financial Condition and Result of Operations.

1. Plan of Operation

Even while the Philippines continued to deal with the problems brought about by the Covid-19 pandemic, the Company managed to complete the land development of the first parcel of Wellford Homes Jaro. In line with the foregoing, the application for the Certificate of Completion of the said project has been filed with the Department of Human Settlements and Urban Development (DHSUD), and is currently awaiting release. The Company has also recently launched its newest project in Iloilo, known as Wellford Homes Jaro Parcel B.

Since Cebu province was severely affected recently by typhoon Odette, the Company has initially focused its efforts in the rehabilitation of its projects in the said province, while simultaneously working on completing the remaining deliverables for the Phase 4 of Pacific Grand Villas. Here in Luzon, the Company has significantly completed the land development of portions of Phases 1 and 2 of Wellford Homes Malolos in Bulacan, and is set to award the initial batch of townhouses and single-attached units for construction.

Although the Company was able to complete most of the housing units scheduled for delivery in 2021, the Covid-19 pandemic affected the operations of several contractors, with some being forced to cease their operations completely. This resulted in the takeover of several construction works, particularly several rows of townhouses in Pacific Grand Townhomes. However, bidding and awarding of units for construction continue, as the Company aims to fulfill delivery of units on time, as promised to buyers and despite the difficulties brought about by the pandemic. Furthermore, the Company has completed the construction, interior design works, and landscaping of all the model houses in Wellford Homes Malolos, in its bid to improve sales take-up of the project.

The Company also recently awarded the construction of Wellford Residences – Mactan, which will commence by the second quarter of 2022. The first residential tower and amenity building are expected to be completed by 2024.

As the country’s economy slowly recovers, the Government has gradually started to allow more industries to resume operations. The Company is adapting to the new normal by slowly conducting limited face to face events, and at the same time, by continuously enhancing its online marketing presence. We recently conducted face-to-face Annual Sellers’ Awarding and Ground Breaking Ceremonies in both Iloilo and Cebu, after more than 2 years of purely online selling and marketing activities.

New Residential and Commercial Projects

For the coming year, the Company is looking to launch two (2) new residential projects, both contiguous to existing projects.

The Company was able to secure its License to Sell for its Wellford Homes Jaro Parcel B this 2nd quarter of 2022. This particular project will provide new and more diverse inventory for Iloilo, as the remaining units for sale in Jaro Grand Estates are mostly from the duplex units in Wellford Homes Jaro Parcel A.

Pacific Grand Villas Phase 5 will be a purely residential phase, with fewer but bigger lot cuts and bigger houses to be offered than in the previous phases of Pacific Grand Villas. The initial government permits for PGV Phase 5 have already been acquired. The Company is looking to

secure all the necessary permits by the third quarter of 2022, in time for the launch of the project before the year-end

For the next 5 years, the Company has identified several properties in its pipeline, ready for planning and development, such as Wellford Homes Sta. Maria, which is a 40-hectare horizontal mixed-use development, Wellford Homes Balagtas, a 10-hectare horizontal residential development, and Winfields Village Tanza Cavite, a 19.7-hectare horizontal development.

With the highest concentration of business establishments and industrial parks in the area, Sta. Maria is now considered the economic hub of eastern Bulacan. It also houses numerous public and private schools and colleges, as well as the Philippine Arena, renowned as the largest indoor arena in the world, which has been used for various major events ranging from church gatherings, to sports, and live performances.

In Iloilo, Wellford Homes Parcels C & D will be follow-up projects to the recently launched Wellford Homes Parcel B, with both upcoming projects following the American theme of the existing developments in the area.

In addition to these exciting upcoming projects is the proposed mixed-use development in Cebu to be called Winfields Towncenter. This will be a combination of mid-rise residential and commercial towers, a first in its area in Mactan.

To support its liquidity, the Company is offering attractive and flexible payment terms to its buyers and has also accredited new contractors which can deliver built units faster so as to expedite collection of loan proceeds from partner institutions. Pre-selling of its units and CTS Financing are being explored to fund its projects especially for its newly launched projects

The Company continues to develop and generate cash flow through the following projects:

- ***Pacific Grand Townhomes Phase 1***

The Pacific Grand Townhomes is a middle-class Victorian-themed townhouse project located in Lapu-Lapu City. It boasts of the exclusivity of a pocket community, consisting of 43 units of elegantly designed houses. This stylish community is proximate to private and public institutions, recreational areas, schools, resorts, business and trade centers.

- ***Costa Smeralda.***

The second of our exclusive residential communities in Iloilo City, Costa Smeralda is themed after the famed Italian coastal resorts. Offering 395 lot-units, we introduced in this village four trendy yet sophisticated house designs of varying floor areas, blending form and function to perfectly suit the requirements of discriminating buyers.

- ***Wellford Homes – Jaro***

This project is our third residential community in Iloilo City. The house-and lot packages are mainly designed for homebuyers inclined for economy, maximizing value-for- money. Consisting of about 10 hectares, the initial offering is an American inspired two bungalow-type house model. These single-level houses are very much suited also for senior citizens and retirees. The project was launched in November 2016, with the land development and house construction well underway.

- ***Wellford Homes – Malolos***

Wellford Homes is a residential development with an area of approximately 6.7 hectares located in Barangay Longos, Malolos City, Bulacan. This horizontal development is American inspired. Housing design reflects the suburban feel with the American ambience reflected even in the design of the community facilities and amenities. The subdivision is designed to provide generous areas for roads and open spaces, which accounts for nearly 42% of the total developable area. It is an affordable and quality development that offers a master planned community with a total of 554 residential units with two-storey houses and lot-only properties envisioned to be completed by 4Q 2026

2. Financial Position

The Company maintained its Financial Position as its total assets stood at P2.10B. Current ratio registered at 4.07:1. Current assets reached P1.44B while current liabilities amounted only to P0.35B. Debt –to- equity ratio stood at 0.38:1 The Balance Sheet shows that accounts are indicators of positive liquidity condition. Hereunder are the significant or material changes in the Balance Sheet accounts as of June 30, 2022.

Causes for material changes (5% or more) from period to period:

- a. Cash – the decrease of 97.03% was basically attributable to the payments of prior years' payables and payments for the purchased raw land.
- b. Real estate inventories, net - the increase of 96.82% was due to acquired new raw land
- c. Prepayments and Other Assets – the increase of 892.04% was due to increase in Deferred VAT Input from the purchased raw land to be amortized over 5 years.
- d. Non-current Trade Receivables - the decrease of 69.92% was due to improved collections on sales and restatement of old accounts.
- e. Other Noncurrent Assets - the increase of 12.58% was due to increase in Refundable Deposits to MORE ELECTRIC AND POWER CORPORATION for the extension of electrical distribution facilities.
- f. Deferred Gross Profit - the decrease of 10.36% was the result of recognition of realized gross profit based on percentage of completion done for the quarter.
- g. Customers Deposits – the decrease of 27.50% was due to increase in reported sales from the reservations made in prior's year.
- h. Retention payable and refundable bonds - the increase of 6.28% pertains to the 10% retained payment of each progress billing of contractors to be paid until full completion of the contract of on-going projects

3. Result of Operations

For the 2Q 2022, the Company was able to post consolidated net sales of ₱ 38.42M thus registering a decrease of ₱20.13M or 34.38% compared to the Sales for same period in 2021 of ₱ 58.55M.

Realized Gross Profit increased by 12.80% or ₱2.37M from ₱20.93M this 2Q 2022 compared to ₱18.56M in 2Q 2021. Consequently, Net Income before tax decreased to ₱0.388M compared from ₱0.476M in 2Q 2021, a decrease of 18.35% or ₱0.087M. This was primarily due to the lingering effect of the pandemic and typhoon Odette, which hit the areas where our projects are located at, Cebu and Iloilo.

Comparative Top Key Performance Indicators of the Company:

Management evaluates the Company's performance as it relates to the following:

- a. Sales – The Company gauges its performance by determining the Return on Sales (net income after tax over the net sales). It indicates net profitability of each peso of sales.
- b. Accounts Receivable – The Company assesses the efficiency in collecting receivables and in managing of credit by determining the past due ratio thru the aging of receivables.
- c. Gross Profit Margin – Measures effectiveness of pricing and control of project development cost. This is derived by dividing Gross Profit over Net Sales.
- d. Working Capital – The Company's ability to meet obligations is measured by determining Current Assets over Current Liabilities. Working Capital turnover is calculated by dividing Sales over Average Net Working Capital.

Variance Analysis – Another tool that measures efficiency on how the actual sales were attained via a vis forecasted sales.

<u>INDICATOR</u>	<u>Q2 2022</u>	<u>Q2 2021</u>
Return on sales	1.01%	0.81%
Past due ratio	5.7%	5.20%
Gross Profit rate	48.31%	48.44%
Working Capital Turnover	0.05	0.06

4. Other Notes to 2Q 2022 Operations and Financials:

Analysis of material events and uncertainties known to management that would address the past and would have an impact on future operations:

- **Any known trends, demands, commitments, events or uncertainties that will have an impact on the issuer's liquidity;**

At present, the uncertainty that may have a material impact on sales is the economic situation. The seemingly improving economic situation has already translated into a significant buying mood for the real estate market. Overall, there are no contingencies that may affect future operations of the Company. In such eventuality, the resolution of this is dependent to a large extent, on the efficacy of the fiscal measures and other actions.

- **Any event that will trigger direct or contingent financial obligation that is material to the company, including any default or acceleration of an obligation;**

The Company sees no event that will trigger direct or contingent financial obligation that is material to the Company despite of the effect of pandemic COVID-19.

- **All material off-balance sheet transactions, arrangements, obligations (including contingent obligations), and other relationships of the company with unconsolidated entities or other persons created during reported period.**

There were no material off-balance sheet transactions, agreements, obligations, (including contingent obligations), and other relationship of the Company with unconsolidated entities or other persons created during the reported period.

- **Any material commitments for capital expenditures, the general purpose of such commitments and expected sources of funds of such expenditures.**

Despite the negative economic effects of the pandemic, there will be continued demand for housing as the vaccine rollout is made. Hence, the Company aims to expand its inventory of projects through the acquisition of land in selected areas where economic growth is expected to show resiliency (i.e. Bulacan and Cavite). In this regard, the board of the Company has approved to undertake a Stock Rights Offering ("SRO") to raise capital for land acquisition.

The proceeds will be used to acquire land to be developed by the Company.

- **Any known trends, events or uncertainties (Material Impact on Sales)**

Due to Global Pandemic, there were significant material impacts on sales.

- **Any significant elements of income or loss (from continuing operations)**

Considering the evolving nature of this pandemic, the Company will continue to monitor the situation to determine the impact to its financial position, performance and cash flows.

- **Seasonal aspects that had material effect on the financial condition or results of operation.**

Projects are launched at no particular time of the year depending on several factors such as completion of plans and permits and appropriate timing in terms of market condition and strategies. Development and construction works follow.

- **Internal and external sources of liquidity**

Collections from selling activities provide liquidity. Externally, the Company avails of credit lines offered by banks and other financial institution, private or government. The Company periodically reviews its capital structure and existing obligations.

Compliance with Leading Practice on Corporate Governance

The Company has adopted the Manual of Corporate Governance and full compliance with the same has been made since the adoption of the Manual.

The Company is taking further steps to enhance adherence to principles and practices of good corporate governance. Among these are as follows:

- Organizational and Procedural Controls
- Independent Audit Mechanism
- Regular Reporting to Audit Committee
- Creation of Board Committees
- Financial and Operational Reporting

- Compliance to Government Regulatory and Reportorial Requirements
- Disclosure of Transparency to the Public

There was no deviation committed by any of the Company's directors and/or officers on the Manual of Corporate Governance during the period covered in this report.

Report on the Audits of Parent Company Financial Statements

Opinion

We have audited the Parent Company financial statements of **Philippine Estates Corporation** (the 'Parent Company'), which comprise the statements of financial position as at December 31, 2021 and 2020, and the statements of comprehensive income, statements of changes in equity and statements of cash flows for each of the three years in the period ended December 31, 2021, and notes to Parent Company financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying Parent Company financial statements present fairly, in all material respects, the financial position of the Parent Company as at December 31, 2021 and 2020, and its financial performance and its cash flows for each of the three years in the period ended December 31, 2021, in accordance with Philippine Financial Reporting Standards (PFRS)), as modified by the application of the financial reporting reliefs issued and approved by the Securities and Exchange Commission, as described in Note 2 to the financial statements.

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSA). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audits of the Parent Company Financial Statements* section of our report. We are independent of the Parent Company in accordance with the Code of Ethics for Professional Accountants in the Philippines (the 'Code of Ethics') together with the ethical requirements that are relevant to our audits of the Parent Company financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw attention to Note 2 to the Parent Company's financial statements which indicate that the Parent Company's financial statements have been prepared in accordance with PFRS, as modified by the application of the financial reporting reliefs issued and approved by the Securities and Exchange Commission in response to the COVID-19 pandemic. The impact of the application of the financial reporting reliefs had these provisions and interpretation been adopted are discussed in Note 2. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Parent Company financial statements of the current period. These matters were addressed in the context of our audits of the Parent Company financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described in the succeeding pages to be the key audit matters to be communicated in our report.

Revenue Recognition and Realization of Gross Profit

The Parent Company's revenue recognition process, policies and procedures requires management to make use of estimates and assumptions that may affect the reported amounts of revenue and costs. The Parent Company's revenue from sale of real estate inventories is recognized based on percentage-of-completion and are measured principally on the basis of the estimated completion of a physical proportion of the contract work, and by reference to the actual costs incurred to date over the estimated total costs of the project. However, for income tax computation purposes, the realized gross profit is computed based on collections.

Our Response

Our audit procedures to address the risk of material misstatement relating to revenue recognition, which was considered to be a significant risk, included:

- Vouched and verified the sales and its corresponding cost of sales during the year to its supporting documents.
- Obtained the percentage-of-completion of each project from the contractors.
- Reviewed collections of receivables of prior years' sales for the realization of gross profit.
- Reviewed collections of receivables from current sales for the realization of gross profit.
- Verified the accuracy and mathematical calculations of each of the percentage-of-completion collections during the year.
- Performed site visits for sample of properties (focused primarily on projects under development stage) to assessed the stage of completion.

The Parent Company's disclosures about its sales, cost of sales as well as its deferred gross profit are included in Notes 16, 18, and 19.

Other Information

Management is responsible for the other information. The other information comprises the information included in the SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report for the year ended December 31, 2021, but does not include the Parent Company financial statements and our auditor's report thereon. The SEC form 20-IS, SEC Form 17-A and Annual report for the year ended December 31, 2021 are expected to be made available to us after the date of this auditor's report.

Our opinion on the Parent Company financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audits of the Parent Company financial statements, our responsibility is to read the other information indented above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the Parent Company financial statements or our knowledge obtained in the audits or otherwise appears to be materially misstated.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the Parent Company financial statements in accordance with PFRS, and for such internal control as management determines is necessary to enable the preparation of Parent Company financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the Parent Company financial statements, management is responsible for assessing the Parent Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Parent Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Parent Company's financial reporting process.

Auditors' Responsibilities for the Audits of the Parent Company Financial Statements

Our objectives are to obtain reasonable assurance about whether the Parent Company financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSA will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Parent Company financial statements.

As part of an audit in accordance with PSA, we exercise professional judgment and maintain professional skepticism throughout the audits. We also:

- Identify and assess the risks of material misstatement of the Parent Company financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Parent Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Parent Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the Parent Company financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Parent Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Parent Company financial statements, including the disclosures, and whether the Parent Company financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audits.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Parent Company financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Supplementary Information required by the Bureau of Internal Revenue

Our audits were conducted for the purpose of forming an opinion on the basic financial statements of **Philippine Estates Corporation** taken as a whole. The supplementary information in Note 34 to the Parent Company financial statements is presented for purpose of filing with the Bureau of Internal Revenue and is not a required part of the basic Parent Company financial statements. Such information is the responsibility of management. The information has been subjected to the auditing procedures applied in our audits of the Parent Company basic financial statements. In our opinion, the information is fairly stated in all material respects in relation to the Parent Company basic financial statements taken as a whole.

PHILIPPINE ESTATES CORPORATION

Notes to Parent Company Financial Statements

As at December 31, 2021 and 2020 and for each of the three years
in the period ended December 31, 2021

1. CORPORATE INFORMATION

Philippine Estates Corporation (the ‘Parent Company’) was incorporated in the Philippines on May 30, 1983 as “Philippine Cocoa Estates Corporation”. It was registered with the Securities and Exchange Commission (SEC) with its new corporate name on May 16, 1996 and started its commercial operations in 1996. The Parent Company’s shares are listed and traded in the Philippine Stock Exchange (PSE).

The principal activity of the Parent Company is to engage in the business of holding and developing real estate or other properties for industrial, commercial, residential, leisure or sports purposes, and in pursuance thereof, to acquire by purchase, lease or otherwise, real estate and/or appurtenant properties and/or interest therein. The Parent Company’s condominium projects and other developmental activities are located in the cities of Manila, Bulacan, Cavite, Cebu and Iloilo.

The registered office of the Parent Company, and also its principal place of business, is at 35th Floor, One Corporate Center, Doña Julia Vargas Ave. corner Meralco Avenue, Ortigas Center, Pasig City.

The Parent Company owns the 100% of the shares of stocks issued and outstanding of Mariano Arroyo Development Corporation (MADCorp), its Subsidiary.

The Parent Company’s financial statements as at and for the year ended December 31, 2021, with its comparatives for 2020 and 2019, were approved and authorized for issue by the Board of Directors (BOD) on May 5, 2022.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies that have been used in the preparation of the Parent Company financial statements are summarized below and in the succeeding pages. The policies have been consistently applied to all the years presented, unless otherwise stated.

Statement of Compliance

The financial statements of the Parent Company have been prepared in accordance with Philippine Financial Reporting Standards (PFRS) as modified by the application of the following financial reporting standards reliefs issued and approved by the SEC in response to the COVID-19 pandemic:

On December 15, 2020, the SEC has released Memorandum Circular No. 34 Series of 2020, Deferral of Philippine Interpretations Committee Question & Answer (PIC Q&A) No. 2018-12 and IFRIC Agenda Decision on Over Time Transfer of Constructed Goods (PAS 23, Borrowing Cost) For Real Estate Industry, providing relief to the real estate industry by deferring the application of the following provisions of the PIC Q&A and IFRIC interpretation for another period of three years until December 31, 2023.

- a. Accounting for significant financing component discussed in PIC Q&A No. 2018-12-D;
- b. Exclusion of land and uninstalled materials in the determination of percentage of completion (POC) discussed in PIC Q&A No. 2018-12-E; and
- c. IFRIC Agenda Decision on Over Time Transfer of Constructed Goods (PAS 23, Borrowing Cost).

The SEC Memorandum Circulars also provided the mandatory disclosure requirements should an entity decide to avail of any relief. Disclosures should include:

- a. the accounting policies applied;
- b. discussion of the deferral of the subject implementation issues in the PIC Q&A;
- c. qualitative discussion of the impact in the financial statements had the concerned application guideline in the PIC Q&A been adopted; and
- d. should any of the deferral options result into a change in accounting policy (e.g., when an entity excludes land and/or uninstalled materials in the POC calculation under the previous standard but opted to include such components under the relief provided by the circular), such accounting change will have to be accounted for under PAS 8, i.e., retrospectively, together with the corresponding required quantitative disclosures.

The Parent Company has availed of the deferral of adoption of the above provisions of PIC Q&A and IFRIC interpretation. Had these provisions and interpretation been adopted, it would have the following impact in the financial statements:

- a. The mismatch between the POC of the real estate projects and right to an amount of consideration based on the schedule of payments explicit in the contract to sell would constitute a significant financing component. Interest income would have been recognized for contract assets and interest expense for contract liabilities using effective interest rate method and this would have impacted retained earnings as at January 1, 2021 and the revenue from real estate sales in 2021. Currently, any significant financing component arising from the mismatch discussed above is not considered for revenue recognition purposes.
- b. The exclusion of land and uninstalled materials in the determination of POC would reduce the POC of real estate projects resulting in a decrease in retained earnings as at January 1, 2021 as well as a decrease in the revenue from real estate sales in 2021. This would result to the land portion of sold inventories together with connection fees, to be treated as contract fulfillment asset.
- c. The IFRIC interpretation concluded that any work-in-progress inventory that the developer intends to sell as it finds suitable customers and, on signing a contract with a customer, will transfer control of the work-in-progress relating to that unit to customer is not a qualifying asset since the asset is ready for its intended sale in its current condition. The interpretation will result in decrease in retained earnings as at January 1, 2021 as well as increase in interest expense in 2021.

These are the separate financial statements of the Parent Company. The Parent Company also prepares consolidated financial statements that include the financial statements of its subsidiary. The Group's consolidated financial statements could be obtained from the Parent Company's registered address as disclosed in Note 1.

The Parent Company is required by the SEC to prepare both separate and consolidated financial statements which are available for public use under full PFRS.

Basis of Preparation

The financial statements have been prepared on a historical cost basis, except for the Parent Company's financial assets at FVOCI, which are stated at fair value. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique.

Functional and Presentation Currency

The financial statements are presented in Philippine peso (₱), the Parent Company's functional currency. All amounts are rounded to the nearest peso except when otherwise indicated.

Changes in Accounting Policies and Disclosures

The accounting policies adopted are consistent with those of the previous financial years except for the following new and amended PFRS that are mandatorily effective for annual periods beginning on or after January 1, 2021.

COVID-19-related Rent Concessions beyond June 30, 2021 (Amendments to PFRS 16). The amendment provides relief to lessees from applying the PFRS 16 requirement on lease modifications to rent concessions arising as a direct consequence of the COVID-19 pandemic. A lessee may elect not to assess whether a rent concession from a lessor is a lease modification if it meets all of the following criteria: (a) the rent concession is a direct consequence of COVID-19; (b) the change in lease payments results in a revised lease consideration that is substantially the same as, or less than, the lease consideration immediately preceding the change; (c) any reduction in lease payments affects only payments originally due on or before June 30, 2022; and (d) there is no substantive change to other terms and conditions of the lease.

A lessee that applies this practical expedient will account for any change in lease payments resulting from the COVID-19 related rent concession in the same way it would account for a change that is not a lease modification, i.e., as a variable lease payment.

The amendment is effective for annual reporting periods beginning on or after April 1, 2021. Early adoption is permitted. The Parent Company adopted the amendments beginning April 1, 2021. As there are no rent concessions granted to the Parent Company as a lessee, these amendments had no impact on the financial statements.

Interest Rate Benchmark Reform – Phase 2 (Amendments to PFRS 9, PFRS 7, PFRS 4 and PFRS 16). The amendments provide the following temporary reliefs which address the financial reporting effects when an interbank offered rate (IBOR) is replaced with an alternative nearly risk-free interest rate (RFR):

- Practical expedient for changes in the basis for determining the contractual cash flows as a result of IBOR reform
- Relief from discontinuing hedging relationships
- Relief from the separately identifiable requirement when an RFR instrument is designated as a hedge of a risk component.

The Parent Company shall also disclose information about: (a) the nature and extent of risks to which the entity is exposed arising from financial instruments subject to IBOR reform, and how the entity manages those risks; and (b) their progress in completing the transition to alternative benchmark rates, and how the entity is managing that transition.

The amendments are effective for annual reporting periods beginning on or after January 1, 2021 and apply retrospectively. These amendments had no impact on the financial statements of the Parent Company.

New Accounting Standards, Interpretations and Amendments to Existing Standards Effective Subsequent to January 1, 2021

Standards issued but not yet effective up to the date of the Parent Company's financial statements are listed below. This listing of standards and interpretations issued are those that the Parent Company reasonably expects to have an impact on disclosures, financial position or performance when applied at a future date. The Parent Company intends to adopt these standards when they become effective.

Reference to the Conceptual Framework (Amendments to PFRS 3). Minor amendments were made to PFRS 3, Business Combinations to update the references to the Conceptual Framework for Financial Reporting and add an exception for the recognition of liabilities and contingent liabilities within the scope of PAS 37, Provisions, Contingent Liabilities and Contingent Assets and Philippine Interpretation IFRIC 21, Levies. The amendments also confirm that contingent assets should not be recognized at the acquisition date. The amendments are effective for annual periods beginning on or after January 1, 2022.

Property, Plant and Equipment: Proceeds before Intended Use (Amendments to PAS 16). The amendments to PAS 16, Property, Plant and Equipment prohibits an entity from deducting from the cost of an item of property, plant and equipment any proceeds received from selling items produced while the entity is preparing the asset for its intended use. It also clarifies that an entity is 'testing whether the asset is functioning properly' when it assesses the technical and physical performance of the asset. The financial performance of the asset is not relevant to this assessment. Entities must disclose separately the amounts of proceeds and costs relating to items produced that are not an output of the entity's ordinary activities. The amendments are effective for annual periods beginning on or after January 1, 2022.

Onerous Contracts – Cost of Fulfilling a Contract (Amendments to PAS 37). The amendment to PAS 37 clarifies that the direct costs of fulfilling a contract include both the incremental costs of fulfilling the contract and an allocation of other costs directly related to fulfilling contracts. Before recognizing a separate provision for an onerous contract, the entity recognizes any impairment loss that has occurred on assets used in fulfilling the contract.

The above amendments are effective for annual periods beginning on or after January 1, 2022. The Parent Company will apply these amendments to contracts for which it has not yet fulfilled all its obligations at the beginning of the annual reporting period in which it first applies the amendments.

Annual Improvements to PFRS Standards 2018–2020

- PFRS 9, *Financial Instruments* – clarifies which fees should be included in the 10% test for derecognition of financial liabilities.

- PFRS 16, *Leases – Lease Incentives* – amendment of illustrative example 13 to remove the illustration of payments from the lessor relating to leasehold improvements. The objective of the amendment is to avoid any potential confusion regarding the treatment of lease incentives because of how the requirements for lease incentives are illustrated.
- PFRS 1, *First-time Adoption of Philippine Financial Reporting Standards* – allows subsidiaries that have measured their assets and liabilities at carrying amounts recorded in their parent’s books to also measure any cumulative translation differences using the amounts reported by the parent. This amendment will also apply to associates and joint ventures that have taken the same PFRS 1 exemption.
- PAS 41, *Agriculture, Taxation in Fair Value Measurements* – removal of the requirement for entities to exclude cash flows for taxation when measuring fair value under PAS 41. This amendment is intended to align with the requirement in the standard to discount cash flows on a post-tax basis.

The annual improvements are effective for annual periods beginning on or after January 1, 2022.

Deferred Tax Related to Assets and Liabilities Arising from a Single Transaction (Amendments to PAS 12). The amendments narrow the scope of the initial recognition exception under PAS 12, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences. The amendments also clarify that where payments that settle a liability are deductible for tax purposes, it is a matter of judgement (having considered the applicable tax law) whether such deductions are attributable for tax purposes to the liability recognized in the financial statements (and interest expense) or to the related asset component (and interest expense). The annual improvements are effective for annual periods beginning on or after January 1, 2023.

An entity intends to apply the amendments to transactions that occur on or after the beginning of the earliest comparative period presented for annual reporting periods on or after January 1, 2023. The amendments are not expected to have a material impact on the Parent Company.

Definition of Accounting Estimates (Amendments to PAS 8). The amendments introduce a new definition of accounting estimates and clarify the distinction between changes in accounting estimates and changes in accounting policies and the correction of errors. Also, the amendments clarify that the effects on an accounting estimate of a change in an input or a change in a measurement technique are changes in accounting estimates if they do not result from the correction of prior period errors.

An entity applies the amendments to changes in accounting policies and changes in accounting estimates that occur on or after January 1, 2023 with earlier adoption permitted. The amendments are not expected to have a material impact on the Parent Company.

Disclosure of Accounting Policies (Amendments to PAS 1 and PFRS Practice Statement 2). The narrow-scope amendments PAS 1, *Presentation of Financial Statements* require entities to disclose material accounting policy information instead of significant accounting policies. The amendments also clarify the following: (1) accounting policy information may be material because of its nature, even if the related amounts are immaterial; (2) accounting policy is material if users of an entity’s financial statements would need it to understand other material information in the statements; and (3) if an entity discloses immaterial accounting policy information, such information shall not obscure material accounting policy information.

Further, the amendment provides several paragraphs to explain how an entity can identify material accounting policy information and to give examples of when accounting policy information is likely to be material. In addition, PFRS Practice Statement 2 has been amended by adding guidance and examples to explain and demonstrate the application of 'four-step materiality process' to accounting policy information in order to support the amendments to PAS 1.

The amendment is applied prospectively. The amendment is effective for annual periods beginning on or after January 1, 2023, with earlier application permitted. Once the entity applies the amendments to PAS 1, it is also permitted to apply the amendments to PFRS Practice Statement 2.

Classification of Liabilities as Current or Non-current (Amendments to PAS 1). The amendments clarify paragraphs 69 to 76 of PAS 1, *Presentation of Financial Statements*, to specify the requirements for classifying liabilities as current or non-current. The amendments clarify:

- What is meant by a right to defer settlement
- That a right to defer must exist at the end of the reporting period
- That classification is unaffected by the likelihood that an entity will exercise its deferral right
- That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification

The amendments are effective for annual reporting periods beginning on or after January 1, 2023 and must be applied retrospectively. However, in November 2021, the International Accounting Standards Board (IASB) tentatively decided to defer the effective date to no earlier than January 1, 2024. The Parent Company is currently assessing the impact the amendments will have on current practice.

PFRS 17, Insurance Contracts. PFRS 17 is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Once effective, PFRS 17 will replace PFRS 4, *Insurance Contracts*. This new standard on insurance contracts applies to all types of insurance contracts (i.e., life, non-life, direct insurance and re-insurance), regardless of the type of entities that issue them, as well as to certain guarantees and financial instruments with discretionary participation features. A few scope exceptions will apply. The overall objective of PFRS 17 is to provide an accounting model for insurance contracts that is more useful and consistent for insurers. In contrast to the requirements in PFRS 4, which are largely based on grandfathering previous local accounting policies, PFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects.

The core of PFRS 17 is the general model, supplemented by:

- A specific adaptation for contracts with direct participation features (the variable fee approach)
- A simplified approach (the premium allocation approach) mainly for short-duration contracts

On December 15, 2021, the FRSC amended the mandatory effective date of PFRS 17 from January 1, 2023 to January 1, 2025. This is consistent with Circular Letter No. 2020-62 issued by the Insurance Commission which deferred the implementation of PFRS 17 by two (2) years after its effective date as decided by the IASB.

PFRS 17 is effective for reporting periods beginning on or after January 1, 2025, with comparative figures required. Early application is permitted. The new standard is not applicable to the Parent Company since it has no activities that are predominantly connected with insurance or issue insurance contracts.

Deferred Effectivity

PFRS 10, *Consolidated Financial Statements* and PAS 28, *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture* (Amendments). The amendments address the conflict between PFRS 10 and PAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that a full gain or loss is recognized when a transfer to an associate or joint venture involves a business as defined in PFRS 3. Any gain or loss resulting from the sale or contribution of assets that does not constitute a business, however, is recognized only to the extent of unrelated investors' interests in the associate or joint venture. On January 13, 2016, the FRSC deferred the original effective date of April 1, 2016 of the said amendments until the IASB has completed its broader review of the research project on equity accounting that may result in the simplification of accounting for such transactions and of other aspects of accounting for associates and joint ventures.

The Parent Company has not early adopted the previously mentioned new, amended and improved accounting standards and interpretations. The Parent Company continues to assess the impact of the above new, amended and improved accounting standards and interpretations that are effective subsequent to January 1, 2021 on its financial statements in the period of initial application. Additional disclosures required by these amendments will be included in the Parent Company financial statements when these amendments are adopted.

Financial Instruments

Initial Recognition, Measurement and Classification

The Parent Company recognizes financial assets and financial liabilities in the statements of financial position when it becomes a party to the contractual provisions of the instrument. Purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place are recognized on the settlement date.

Financial assets and financial liabilities are recognized initially at fair value including transaction costs, except for those financial assets and liabilities at FVPL where the transaction costs are charged to expense in the period incurred.

The Parent Company classifies its financial assets as subsequently measured at amortized cost, fair value through other comprehensive income (FVOCI) and FVPL.

The classification of financial assets depends on the financial asset's contractual cash flow characteristics and the Parent Company's business model for managing the financial assets. The Parent Company's business model is determined at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. The Parent Company's business model determines whether cash flows will result from collecting contractual cash flows, selling financial assets or both.

The Parent Company classifies its financial liabilities as subsequently measured at amortized cost using the effective interest method or at FVPL.

The Parent Company does not have any financial instruments that are measured and classified at FVPL.

Financial assets at amortized cost

Financial assets are measured at amortized when both of the following conditions are met:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial measurement, financial assets at amortized cost are subsequently measured using the effective interest method less allowance for impairment. Gains and losses are recognized in the statements of comprehensive income when the financial assets at amortized cost are derecognized, modified or impaired. These financial assets are included in current assets if maturity is within twelve (12) months from the end of reporting period. Otherwise, these are classified as noncurrent assets.

As at December 31, 2021 and 2020, included under financial assets at amortized cost are the Parent Company's cash, trade and other receivables, advances to related parties and other noncurrent assets (see Notes 4, 5, 11 and 23).

Cash represents cash on hand and cash in banks. Cash in banks earn interest at respective bank deposit rate.

Trade and other receivables consist of installment contract receivables, advances to homeowners, advances to employees, receivables from contractors, and others.

Other noncurrent assets consist of refundable deposits.

Equity instruments designated at FVOCI

When the equity instrument is derecognized, the cumulative gain or loss previously recognized in other comprehensive income is not subsequently reclassified to profit or loss, but is transferred to retained earnings. Dividends on such investments are recognized in profit or loss when the right of payment has been established, except when the dividends represent a recovery of part of the cost of the investment, in which case, such gains are recorded in other comprehensive income. Equity instruments designated at FVOCI are not subject to impairment assessment. These financial assets are classified as noncurrent assets.

As at December 31, 2021 and 2020, the Parent Company elected to classify irrevocably its unquoted equity investments under this category (see Note 9).

Financial liabilities at amortized cost

Financial liabilities that are not contingent consideration of an acquirer in a business combination, held for trading, or designated as at FVPL, are measured subsequently at amortized cost using the effective interest method.

The effective interest method is a method of calculating the amortized cost of a financial liability and allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortized cost of a financial liability.

As at December 31, 2021 and 2020, included under financial liabilities at amortized cost are the Parent Company's accounts payable and other liabilities, borrowings, retention payable and refundable bonds, lease liabilities and advances from related parties (see Notes 12, 13, 15, 23 and 27).

Accounts payable and other liabilities

Accounts payable are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Other liabilities include non-trade payables (mainly payable to government agencies), accrued expenses and other payables which composed of collections from customers for payment of retitling and property taxes.

Retention payable and refundable bonds

Retention payable pertains to ten percent (10%) of each progress payment retained by the Parent Company until full completion of the contract while refundable bonds pertains to construction, renovation and/or fencing bonds collected from buyer which will be released by the Parent Company upon completion of construction and/or renovation.

Lease liabilities

Lease liabilities represent the Parent Company's obligation to make lease payments for all leases with a term of more than twelve (12) months, unless the underlying asset is of low value is effectively treated as a financial liability which is measured at amortized cost, using the rate of interest implicit in the lease as the effective interest rate.

Advances from related parties

Advances from related parties pertain to various cash advances for working capital and expenses initially shouldered by the related parties.

Borrowing cost

General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

All other borrowing costs are recognized as expenses in the Parent Company's statements of comprehensive income in the period incurred.

Offsetting of Financial Instruments

Financial assets and financial liabilities are offset and the net amount reported in the Parent Company statements of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

Derecognition of Financial Instruments

Financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognized when:

- the rights to receive cash flows from the asset have expired;
- the Parent Company retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to third party under a “pass-through” arrangement; or
- the Parent Company has transferred its rights to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained substantially all risks and rewards of the asset, but has transferred control of the asset.

Where the Parent Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Parent Company’s continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Parent Company could be required to repay.

Financial liabilities

A financial liability is derecognized when the obligation under the liability was discharged, cancelled or has expired.

Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the Parent Company statements of comprehensive income.

Impairment of Financial Assets

The Parent Company recognizes an allowance for expected credit losses (ECL) for all debt instruments that are measured at amortized cost. ECL is a probability-weighted estimate of credit losses over the expected life of the financial asset.

Credit losses are the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Parent Company expects to receive, discounted at the original effective interest rate. The expected cash flows include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

The Parent Company assesses at each end of the reporting period whether the credit risk on a financial asset has increased significantly since initial recognition. For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is measured at an amount equal to the lifetime ECL. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, a loss allowance is measured at an amount equal to 12-month ECL. Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12-month ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within twelve (12) months after the reporting period.

For trade and other receivables, and advances to related parties, the Parent Company applies a simplified approach and general approach, respectively, in calculating ECL. The Parent Company recognizes a loss allowance using the management's adopted policy on ECL at the end of each reporting period. The ECL on these financial assets are estimated using a provision matrix based on the Parent Company's historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment, including time value of money where appropriate.

When the credit risk on financial instruments for which lifetime ECL have been recognized subsequently improves, and the requirement for recognizing lifetime ECL is no longer met, the loss allowance is measured at an amount equal to 12-month ECL at the current reporting period, except for assets for which simplified approach was used.

The Parent Company recognizes impairment loss (reversals) in profit or loss for all financial assets with a corresponding adjustment to their carrying amount through a loss allowance account, except for investments in debt instruments that are measured at FVOCI, for which the loss allowance is recognized in other comprehensive income and does not reduce the carrying amount of the financial asset in the statements of financial position.

Significant increase in credit risk

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Parent Company compares the risk of a default occurring on the financial instrument at the end of reporting period with the risk of a default occurring on the financial instrument at the date of initial recognition. In making this assessment, the Parent Company considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort. Forward-looking information considers the future prospects of the industries in which the Parent Company's debtors operate, obtained from economic expert reports, financial analysts, governmental bodies, relevant think-tanks and other similar organizations, as well as consideration of various external sources of actual and forecast economic information that relate to the Parent Company's core operations.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk for a particular financial instrument, e.g. the extent to which the fair value of a financial asset has been less than its amortized cost;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- significant increases in credit risk on other financial instruments of the same debtor and
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Parent Company presumes that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are one (1) day past due, unless the Parent Company has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Parent Company assumes that the credit risk on a financial instrument has not increased significantly since initial recognition of the financial instrument is determined to have low credit risk at the end of reporting period. A financial instrument is determined to have low credit risk if:

- the financial instrument has a low risk of default;
- the debtor has a strong capacity to meet its contractual cash flow obligations in the near term; and
- adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfill its contractual cash flow obligations.

The Parent Company considers a financial asset to have low credit risk when the asset has external credit rating of investment grade in accordance with the globally understood definition or if an external rating is not available, the asset has an internal rating of performing. Performing means that the counterparty has a strong financial position and there is no past due amounts.

The Parent Company regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

Definition of default

The Parent Company considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that financial assets that meet either of the following criteria are generally not recoverable:

- when there is a breach of financial covenants by the debtor; or

- information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Parent Company, in full (without taking into account any collateral held by the Parent Company).

Irrespective of the above analysis, the Parent Company considers that default has occurred when a financial asset is more than one (1) year past due unless the Parent Company has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

Credit-impaired financial assets

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- significant financial difficulty of the issuer or the borrower;
- a breach of contract, such as a default or past due event;
- the lenders of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession that the lenders would not otherwise consider;
- it is becoming probable that the borrower will enter bankruptcy or other financial reorganization; or
- the disappearance of an active market for that financial asset because of financial difficulties.

Write-off policy

The Parent Company writes off a financial asset when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the debtor has been placed under liquidation or has entered into bankruptcy proceedings, or in the case of trade receivables, when the amounts are over five (5) year past due, whichever occurs sooner.

Financial assets written off may still be subject to enforcement activities under the Parent Company's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognized in profit or loss.

Determination of Fair Value and Fair Value Hierarchy

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to the Parent Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their best economic interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Parent Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Parent Company determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

The Parent Company determines the policies and procedures for both recurring fair value measurement and for non-recurring measurement.

For the purpose of fair value disclosures, the Parent Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

Fair value measurement disclosures of financial and non-financial assets are presented in Note 32 to the financial statements.

“Day 1” difference

When the transaction price in a non-active market is different from the fair value of other observable current market transactions in the same instrument or based on a valuation technique whose variables include only data from observable market, the Parent Company recognizes the difference between the transaction price and fair value (a “Day 1” difference) in the statements of comprehensive income unless it qualifies for recognition as some other type of asset or liability. In cases where use is made of data which is not observable, the difference between the transaction price and model value is only recognized in the statements of comprehensive income when the inputs become observable or when the instrument is derecognized. For each transaction, the Parent Company determines the appropriate method of recognizing the “Day 1” difference amount.

Real Estate Inventories

Real estate inventories are property acquired or being constructed for sale in the ordinary course of business, rather than to be held for rental or capital appreciation.

On initial recognition, real estate inventories are measured at cost which includes cost of land, amounts paid to contractors for construction, borrowing costs, planning and design costs, costs of site preparation, professional fees, property transfer taxes, construction overheads and other related costs during the construction period.

Real estate inventories are subsequently carried at lower of cost and net realizable value. The cost of real estate inventories as disclosed in the Parent Company's statements of financial position is determined using the specific identification and cost allocation for non-specific cost. Net realizable value is the estimated selling price in the ordinary course of the business, based on market prices at the reporting date, less estimated costs to completion and the estimated costs of sale.

When the net realizable value of the real estate inventories is lower than costs, the Parent Company provides for an allowance for the decline in the value and recognizes the write-down as an expense in the Parent Company statements of comprehensive income. The amount of any reversal of write-down of real estate inventories, arising from an increase in net realizable value, is recognized as a reduction in the amount of real estate inventories recognized as an expense in the period in which the reversal occurs.

The cost of inventory recognized in the Parent Company statements of comprehensive income on disposal is determined with reference to the specific costs incurred on the property sold.

Prepayments and Other Current Assets

Prepayments are expenses paid in advance and recorded as asset before they are utilized. Prepayments are initially recognized at cost and subsequently measured at cost less any utilized portion and impairment loss. This account comprises prepaid items which are apportioned over the period covered by the payment and charged to the appropriate accounts in the Parent Company statements of comprehensive income when incurred.

Prepayments that are expected to be realized within twelve (12) months after the reporting date are classified as current asset, otherwise, these are classified as other noncurrent asset.

An impairment loss is recognized for the amount by which the assets carrying amount exceeds its recoverable amount. Prepayments are derecognized upon consumption and usage.

Input Tax and Other Prepaid Taxes

Input tax is the indirect tax paid by the Parent Company on the local purchase of goods or services from a VAT-registered person. Creditable withholding tax is deducted from income tax payable on the same year the revenue was recognized.

The Parent Company's input tax and other prepaid taxes are initially recognized at face value and subsequently measured at face value less provision for impairment, if any. Allowance for unrecoverable input tax and other prepaid taxes, if any, is maintained by the Parent Company at a level considered adequate to provide for potential uncollectible portion of the claims. The Parent Company, on a continuing basis, makes a review of the status of the claims designed to identify those that may require provision for impairment loss.

Interest in Joint Operation

The Parent Company has entered into jointly controlled operations. A joint operation is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the assets, and obligations for the liabilities, relating to the arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

When the Parent Company undertakes its activities under joint operations, the Parent Company as a joint operator recognizes in relation to its interest in a joint operation:

- Its assets, including its share of any assets held jointly.
- Its liabilities, including its share of any liabilities incurred jointly.
- Its revenue from the sale of its share of the output arising from the joint operation.
- Its share of the revenue from the sale of the output by the joint operation.
- Its expenses, including its share of any expenses incurred jointly.

The Parent Company accounts for the assets, liabilities, revenues and expenses relating to its interest in a joint operation in accordance with the PFRS applicable to the particular assets, liabilities, revenues and expenses.

When a group entity transacts with a joint operation in which a group entity is a joint operator (such as a sale or contribution of assets), the Parent Company is considered to be conducting the transaction with the other parties to the joint operation, and gains and losses resulting from the transactions are recognized in the Parent Company's financial statements only to the extent of other parties' interests in the joint operation.

When an entity transacts with a joint operation in which entity is a joint operator (such as a purchase of assets), the Parent Company does not recognize its share of the gains and losses until it resells those assets to a third party.

Investment in a Subsidiary

Subsidiary is an entity over which the Parent Company has control. The Parent Company controls the subsidiary when it is exposed, or has rights, to variable returns from its involvement with the subsidiary and has the ability to affect those returns through its power over the subsidiary.

Investment in a subsidiary is initially measured at cost. Subsequent to initial recognition, investment in a subsidiary is carried in the Parent Company separate financial statements at cost less any accumulated impairment losses.

The Parent Company's accounting policy for impairment of financial assets is applied to determine whether it is necessary to recognize any impairment loss with respect to its investment in a subsidiary. When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with the Parent Company's accounting policy on impairment of tangible and intangible assets as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs to sell) with its carrying amount, any impairment loss recognized forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognized to the extent that the recoverable amount of the investment subsequently increases.

Investment in a subsidiary is derecognized upon disposal or when no future economic benefits are expected to arise from the investment. Gain or loss arising on the disposal is determined as the difference between the sales proceeds and the carrying amount of the investment in a subsidiary and is recognized in statements of comprehensive income.

Based on the management's impairment review of the Parent Company's assets, the Parent Company believes that there is no indication that an impairment loss has occurred on its investment in a subsidiary as at December 31, 2021 and 2020.

Property and Equipment

Property and equipment are tangible assets that are held for use in production or supply of goods or services, for rental to others, or for administrative purposes, and are expected to be used during more than one period.

Property and equipment are initially recognized at cost which comprises its purchase price, including taxes and any directly attributable costs of bringing the asset to its working condition and location necessary for it to be capable of operating in the manner intended by management.

Property and equipment account are subsequently carried at cost less accumulated depreciation and any impairment in value.

Right-of-use assets are assets that represent lessee's right to use an asset over the lease term. The Parent Company recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are initially measured at cost which includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are subsequently measured at cost less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

Expenses that provide incremental future economic benefits to the Parent Company are added to the carrying amount of an item of property and equipment. All other expenses are recognized in the Parent Company statements of comprehensive income as incurred.

Depreciation of property and equipment commences once the property and equipment are available for use and computed using the straight-line basis over the estimated useful life of property and equipment as follows:

	In Years
Building and improvements	25
Transportation equipment	5
Machinery, furniture and fixture	3
Right-of-use assets	3-5

The useful lives and depreciation method are reviewed annually to ensure that the periods and method of depreciation are consistent with the expected pattern of economic benefits from items of property and equipment.

When property and equipment are retired or otherwise disposed of, the cost of the related accumulated depreciation and accumulated impairment losses, if any, are removed from the accounts and any resulting gain or loss is credited to or charged against current operations. Fully depreciated and amortized property and equipment are retained in the accounts until they are no longer in use and no further depreciation is charged against current operations.

Impairment of Non-financial Assets

At the end of each reporting period, the Parent Company reviews the carrying amounts of its investments in a subsidiary and, property and equipment to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When the asset does not generate cash flows that are independent from other assets, the Parent Company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. An impairment loss is recognized as an expense immediately.

When an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset in prior years. A reversal of an impairment loss is recognized as income.

Equity

An equity instrument is any contract that evidences a residual interest in the assets of the Parent Company after deducting all of its liabilities. Equity instruments are measured (initial and subsequent) at the fair value of the cash or other resources received or receivable, net of the direct costs of issuing the equity instruments. If payment is deferred and the time value of money is material, the initial measurement is on a present value basis.

Capital stock represents the par value of the shares that are issued and outstanding as at reporting date.

Deficit includes all current and prior period results of operations as disclosed in the Parent Company statements of comprehensive income.

Revenue Recognition

The Parent Company recognizes revenue when: the amount of revenue can be reliably measured; it is probable that future economic benefits will flow to the entity; and specific criteria have been met for each of the Parent Company's activities.

Revenue is recognized when control of the goods or services are transferred to customer at an amount that reflects the consideration to which the Parent Company expects to be entitled in a contract with a customer and excludes amounts collected on behalf of third parties. Revenue is shown net of value-added tax and discounts.

The additional specific recognition criteria for each type of revenue are as follows:

Real estate sales

Revenues from transactions covering sales of real estate which include sales of residential houses, condominium units and developed lots are accounted for under the percentage-of-completion method. Percentage-of-completion method is used to recognize income from sales of projects where the Parent Company has material obligation under the sales contract to complete the project after the property is sold, the equitable interest has been transferred to the buyer, construction is beyond preliminary state, and the costs incurred or to be incurred can be measured reliably. Under this method, revenue is recognized as the related obligations are fulfilled, measured principally on the basis of the estimated completion of a physical proportion of the contract work.

Gain from sales of virtually completed residential lots and housing units, where sufficient down payment has been received and when collectability of the sales price is reasonably assured, is accounted for under the full accrual method. Otherwise, the percentage-of-completion is used where gain from sales of the uncompleted projects is initially deferred and classified under 'Deferred gross profit' in the Parent Company statements of financial position. Deferred gross profit is realized and transferred to the Parent Company statements of comprehensive income based on the percentage-of-completion of the projects. If any of the criteria under the full accrual or percentage-of-completion method is not met, the deposit method is applied until all the conditions for recording a sale are met. Pending recognition of sale, cash received from buyers presented under the "Customers' deposits" account in the "Liabilities" section of Parent Company statements of financial position.

Finance income

Interest and other financial income are recognized on time proportion basis that takes into account the effective yield on the asset or effective interest rate.

Miscellaneous income

Miscellaneous income is recognized when the right to receive cash from services provided is established.

Cost and Expense Recognition

Cost and expenses are recognized in the Parent Company statements of comprehensive income when decrease in future economic benefits related to a decrease in an asset or an increase of a liability has arisen that can be measured reliably. Expenses in the Parent Company statements of comprehensive income are presented using the functional method.

Cost of real estate sold

Cost of real estate sold before the completion of the development is determined on the basis of the acquisition cost of the land plus its full development costs, which include estimated costs for future development works, as determined by the contractors and technical staff of the Parent Company. The estimated expenditures work the full development of sold real estate property, as determined by the technical staff of the Parent Company, are charged to the 'Cost of real estate sold'.

The Parent Company recognizes the effect of revisions in the total project costs in the year these changes become known.

Operating expenses

Operating expenses are recognized in the Parent Company statements of comprehensive income upon utilization of the service or at the date they are incurred. All finance costs are reported in the Parent Company statements of comprehensive income, except capitalized borrowing costs which are included as part of the cost of the related qualifying asset, on an accrual basis.

Income Taxes

The tax expense for the period comprises current and deferred income tax. Tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the reporting date. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is recognized, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the Parent Company financial statements. Deferred income tax is determined using tax rates and laws in the period the temporary difference is expected to be recovered or settled that have been enacted or substantively enacted as at reporting period.

Deferred income tax assets are recognized for all deductible temporary differences, carryforward benefits of unused tax credits from excess of minimum corporate income tax (MCIT) over regular corporate income tax (RCIT) and unused net operating loss carryover (NOLCO), to the extent that it is probable that sufficient future taxable profits will be available against which the deductible temporary differences, carryforward benefits of unused tax credits from excess of MCIT over RCIT and unused NOLCO can be utilized. Deferred income tax liabilities are recognized for all taxable temporary differences.

The Parent Company reassesses at each reporting date the need to recognize a previously unrecognized deferred income tax asset.

Deferred income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income taxes assets and liabilities relate to income taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

Employee Benefits

Short-term employee benefits

The Parent Company recognizes a liability net of amounts already paid and an expense for services rendered by employees during the accounting period that are expected to be settled wholly before twelve (12) months after the end of the reporting period. A liability is also recognized for the amount expected to be paid under short-term cash bonus or profit sharing plans if the Parent Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee, and the obligation can be estimated reliably.

Short-term employee benefits obligation is measured on an undiscounted basis and is expensed as the related service is provided.

Retirement benefits obligation

The Parent Company operates a defined benefit retirement plan. The retirement plan is generally funded through payments to a trustee bank determined by periodic actuarial calculations. A defined benefit plan is a retirement plan that is not a defined contribution plan.

Typically, defined benefit plans define an amount of retirement benefit that an employee will receive on retirement, usually dependent on one or more factors such as age, years of service and compensation.

Retirement benefits obligation is the aggregate of the present value of the defined benefits obligation at the end of the reporting period reduced by the fair value of plan assets.

The cost of providing benefits under the defined benefit plan is actuarially determined using the projected unit credit method. Defined benefit costs comprise service cost, net interest on the net defined benefit liability and remeasurements of net defined benefit liability.

Service costs which include current service costs, past service costs and gains or losses on non-routine settlements are recognized as expense in profit or loss. Past service costs are recognized when plan amendment or curtailment occurs. Past service costs are recognized immediately in profit or loss. These amounts are calculated periodically by independent qualified actuaries.

Net interest on the net defined benefit liability is the change during the period in the net defined benefit liability that arises from the passage of time which is determined by applying the discount rate based on government bonds to the net defined benefit liability. Net interest on the net defined benefit liability is recognized as expense or income in profit or loss.

Remeasurements comprising actuarial gains and losses and return on plan assets (excluding net interest on defined benefit liability) are recognized immediately in other comprehensive income in the period in which they arise. Remeasurements are not reclassified to profit or loss in subsequent periods.

Leases

At inception of a contract, the Parent Company assesses whether a contract is, or contains, a lease based on whether the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

The Parent Company recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured based on the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received. The assets are depreciated to the earlier of the end of the useful life of the right-of-use asset or the lease term using the straight-line method as this most closely reflects the expected pattern of consumption of the future economic benefits. The lease term includes periods covered by an option to extend if the Parent Company is reasonably certain to exercise that option. Right-of-use asset is presented under property and equipment account.

In addition, the right-of-use asset is periodically reduced by impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the Parent Company's incremental borrowing rate. Generally, the Parent Company uses its incremental borrowing rate as the discount rate.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a change in the Parent Company's estimate of the amount expected to be payable under a residual value guarantee, or if the Parent Company changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured in this way, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Parent Company elects to apply the practical expedient not to recognize right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The lease payments associated with these leases is recognized as an expense on a straight-line basis over the lease term.

Related Party Relationship and Transactions

A related party transaction is a transfer of resources, services or obligations between related parties, regardless of whether a price is charged.

Related party relationship exists when: (a) a person or a close member of that person's family has control or joint control, has significant influence or is a member of the key management personnel of the reporting entity or of a parent of the reporting entity; and (b) when any of the following conditions apply: (i) the entity and the reporting entity are members of the same group; (ii) one entity is an associate or joint venture of the other entity; (iii) both entities are joint ventures of the same third party; (iv) one entity is a joint venture of a third entity and the other entity is an associate of the third party; (v) the entity is a post-employment benefit plan for the benefit of employees of the reporting entity; (vi) the entity is controlled or jointly controlled by a person as identified in (a) above; (vii) the entity or any member of a group of which it is part, provides key management personnel services to the reporting entity or to the parent of the reporting entity; (viii) a person identified in (a) above has significant influence over the entity or is a member of the key management personnel of the entity or of a parent of the entity.

In considering each possible related party relationship, attention is directed to the substance of the relationships, and not merely the legal form.

Segment Reporting

A business segment is a group of assets and operations engaged in providing products or services that are subject to risks and returns that are different from those of other business segments.

A geographical segment is engaged in providing products or services within a particular economic environment that are subject to risks and return that are different from those of segments operating in other economic environments.

Operating segments are reported on the basis upon which the Parent Company's reports its primary segment information. Financial information on business segments is presented in Note 26.

Basic Earnings Per Share (EPS)

Basic earnings per share are calculated by dividing the profit by the weighted average number of common shares outstanding during the year.

Provisions and Contingencies

Provisions are recognized when the Parent Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

Where discounting is used, the increase in the provision due to the passage of time is recognized as interest expense. When the Parent Company expects a provision or loss to be reimbursed, the reimbursement is recognized as a separate asset only when the reimbursement is virtually certain and its amount is estimable. The expense relating to any provision is presented in the Parent Company statements of comprehensive income, net of any reimbursement.

Contingent liabilities are not recognized in the Parent Company financial statements. They are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized in the Parent Company financial statements but disclosed when an inflow of economic benefits is probable. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the Parent Company financial statements. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognized in the Parent Company financial statements.

Events After the Reporting Date

The Parent Company identifies post year-end events as events that occurred after the reporting date but before the date when the financial statements were authorized for issue. Post year-end events that provide additional information about the Parent Company's position at the reporting date (adjusting events) are reflected in the Parent Company financial statements. Post year-end events that are not adjusting events are disclosed in the Parent Company financial statements when material.

3. SIGNIFICANT ACCOUNTING JUDGMENTS, AND ACCOUNTING ESTIMATES AND ASSUMPTIONS

The preparation of the Parent Company financial statements in compliance with PFRS requires management to make estimates and assumptions that affect the amounts reported in the Parent Company financial statements. The estimates and assumptions used in the Parent Company financial statements are based upon management's evaluation of relevant facts and circumstances at the end of the reporting period. Actual results could differ materially from such estimates.

Estimates and judgments are continually evaluated and are based on historical experience and other factors including expectations of future events that are believed to be reasonable under the circumstances.

Significant Accounting Judgments in Applying the Parent Company's Accounting Policies

Interest in Joint Operation and Real Estate Inventories

The Parent Company has entered into Joint Venture Agreement with related parties for the development of real estate properties, whereby the Parent Company acts as Developer. The following guidance was set by the Parent Company to distinguish investment in joint venture from real estate inventories:

- Interest in joint venture involves the assets and other resources of each venturers. Each venturer uses its own property and carries its own inventories. It also incurs its own expenses and liabilities and raises its own finance, which represent its own obligations.
- Real estate inventories comprise properties that are held for sale in the ordinary course of business.

The Parent Company's interest in joint venture represents cost incurred to develop and sell the real estate properties contributed by co-venturers, in the Parent Company's ordinary course of business. Accordingly, the Parent Company accounted its share in the joint venture as real estate inventories.

Lease of office space

The Parent Company has entered into contract of lease for its office space it occupies. In determining the substance of the lease, the Parent Company considered, among others, whether a contract is, or contains, a lease based on whether the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Based on management judgment, the Company's leases for its office space have substance of lease, thus, the Parent Company recognized right-of-use assets representing the right to use the leased assets and lease liabilities representing its obligation to make lease payments.

Realizability of Input Value-Added Tax (VAT)

The Parent Company reviews and assesses its input tax for its recoverability. Factors which primarily affect the recoverability include the completeness of the supporting documentation, entitlement to claim VAT paid as input tax credit against output tax liabilities, future vatable revenue, and the possibility of VAT refund. Based on management assessment, input VAT is fully realizable since this can be claimed as a tax credit against the output VAT on its vatable sales.

The Company's input VAT amounted to Nil and ₱859,473 as at December 31, 2021 and 2020, respectively (see Note 7).

Operating Segments

The Parent Company's operating business segment are organized and managed separately according to location of business activities. The Parent Company classifies business segments based on location of its real property projects as in the different geographical areas. Management considers the performance in Metro Manila, Cebu, Iloilo and Davao as its operating business segment (see Note 26).

Investment in a Subsidiary

Based on the management's impairment review of the investment in a subsidiary, the Parent Company believes that there is no indication that an impairment loss has occurred on its investment in a subsidiary as at December 31, 2021 and 2020.

Impairment of property and equipment

Property and equipment are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. An impairment loss would be recognized whenever there is existing evidence that the carrying amount is not recoverable. Management believes that there are no indications that the property and equipment are impaired as at December 31, 2021 and 2020.

Provisions and Contingencies

Estimate of the probable costs for the resolution of possible claims are being developed in consultation with outside counsel handling the Parent Company's defense in these matters and are based upon analysis of potential results. The Parent Company is a party to certain lawsuits or claims arising from the ordinary course of business. However, the Parent Company management and legal counsel believe that the eventual settlement of these liabilities under these lawsuits or claims, if any, will not have a material impact on the Parent Company financial statements. Accordingly, no provision for probable losses arising from contingencies was recognized in the Parent Company financial statements as at December 31, 2021 and 2020.

Significant Accounting Estimates and Assumptions

Revenue and Cost Recognition

The Parent Company's revenue recognition policies require management to make use of estimates and assumptions that may affect the reported amounts of revenue and costs. The Parent Company's revenue from sale of real estate inventories recognized based on percentage-of-completion are measured principally on the basis of the estimated completion of a physical proportion of the contract work, and by reference to the actual costs incurred to date over the estimated total costs of the project. Realized gross profit amounted to ₱79,339,510, ₱74,657,704 and ₱108,143,003 for the years ended December 31, 2021, 2020 and 2019, respectively (see Note 16).

Estimating Allowance for ECL

The Parent Company uses a provision matrix to calculate ECL for trade and other receivables, and advances to related parties. The provision rates are based on days past due for groupings of various customer segments and related party transactions that have similar loss patterns (i.e., by geography, product type, customer type and rating, and coverage by letters of credit and other forms of credit insurance).

The provision matrix is based on the Parent Company's historical observed default rates. The Parent Company's management intends to regularly calibrate (i.e., on an annual basis) the matrix to consider the historical credit loss experience with forward-looking information (i.e., forecast economic conditions). Details about the ECL on the Parent Company's trade and other receivables, and advances to related parties are disclosed in Note 32.

The carrying amount of the Parent Company's trade and other receivables, and advances to related parties amounted to ₱1,171,282,612 and ₱1,121,699,524 as at December 31, 2021 and 2020, respectively (see Notes 5 and 23).

Allowance for ECL recognized in the Parent Company's statements of financial position amounted to ₱33,370,355 and ₱33,507,006 as at December 31, 2021 and 2020, respectively (see Notes 5 and 23).

Estimating Useful Lives of Assets

The Parent Company estimates the useful lives of property and equipment based on the period over which the assets are expected to be available for use. The estimated useful lives of property and equipment are reviewed periodically and are updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of the assets. In addition, estimation is based on collective assessment of industry practice, internal technical evaluation and experience with similar assets. It is possible, however, that future results of operations could be materially affected by changes in estimates brought about by changes in factors mentioned above. The amounts and timing of recorded expenses for any period would be affected by changes in these factors and circumstances. A reduction in the estimated useful lives of property and equipment would increase recorded operating expenses and decrease noncurrent assets.

The carrying value of property and equipment as at December 31, 2021 and 2020 amounted to ₱37,511,125 and ₱40,402,837, respectively (see Note 10).

Deferred Tax Assets

The Parent Company reviews the carrying amounts of deferred tax assets at each reporting date and reduces deferred tax assets to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized.

The Parent Company's deferred tax assets, net of unrecognized deferred tax asset, as at December 31, 2021 and 2020 amounted to ₱4,734,409 and ₱5,501,261, respectively (see Note 24).

Retirement Benefits Obligation

The determination of the Parent Company's obligation and cost of pension benefits is dependent on the selection of certain assumptions used by actuaries in calculating such amounts. The assumptions shown in Note 25 to the financial statements include among others, discount rates and rates of salary increase. While the Parent Company believes that the assumptions made in the determination of retirement benefits are reasonable, significant change in assumptions materially affect the retirement obligation.

The Parent Company makes estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial year. Estimates and assumptions are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The Parent Company's retirement benefits obligation as at December 31, 2021 and 2020 amounted to ₱10,768,780 and ₱12,030,231, respectively (see Note 25).

4. CASH

Cash as at December 31 consists of:

	2021	2020
Cash on hand	₱ 256,446	₱ 253,446
Cash in banks	384,687,399	16,493,575
	₱ 384,943,845	₱ 16,747,021

Cash in banks generally earn interest based on daily bank deposit rates ranging from 0.125% to 0.25% per annum in 2021 and 2020.

Interest income earned from cash in banks amounted to ₱14,364, ₱32,565, and ₱16,109 in 2021, 2020 and 2019, respectively, and recognized as part of “Other income (net)” in the Parent Company statements of comprehensive income (see Note 20).

There is no restriction on the Parent Company’s cash in banks as at December 31, 2021 and 2020.

5. TRADE AND OTHER RECEIVABLES (net)

Trade and other receivables (net) as at December 31 consist of:

	2021	2020
Current		
Installment contract receivables	₱ 563,736,634	₱ 516,424,058
Advances to homeowners	12,724,267	13,112,159
Advances to employees	6,237,284	8,895,600
Other receivables	5,963,491	9,061,134
	588,661,676	547,492,951
Allowance for ECL	(7,505,588)	(7,642,239)
	₱ 581,156,088	₱ 539,850,712
Noncurrent		
Installment contract receivables from:		
External customers	₱ 25,884,158	₱ 29,216,144
Related parties – note 23	4,340,519	4,340,519
Receivable from contractors	6,401,865	7,137,365
	36,626,542	40,694,028
	₱ 617,782,630	₱ 580,544,740

Movements in the allowance for ECL as at December 31 are as follows:

	2021	2020
Balance as at beginning of year	₱ 7,642,239	₱5,241,419
Reversal of provision during the year – note 20	(136,651)	–
Provision during the year – note 20	–	2,400,820
Balance as at end of year	₱ 7,505,588	₱7,642,239

Installment contract receivables are collectible within a period of one (1) to nine (9) years, and are secured by mortgage on the property purchased by the buyer. These receivables bear interest at annual rates ranging from 12% to 19% in 2021 and 2020. Interest income earned amounted to ₱3,343,724, ₱2,267,829, and ₱2,099,119 in 2021, 2020 and 2019, respectively (see Note 20).

The Parent Company partially finances its real estate projects through assignment of certain installment contract receivables to secure loans availed from local financial institutions. Assigned installment contract receivables as at December 31, 2021 and 2020 amounted to ₱77,291,375 and ₱38,462,694, respectively (see Note 13).

Advances to homeowners pertain to advances for the maintenance of residential subdivisions pending establishment of Homeowner's Associations.

Advances to employees are collected through salary deduction and/or liquidation within six (6) to twelve (12) months.

Receivable from contractors pertain to amount recoverable from construction projects.

Other receivables consist of advances to suppliers and other miscellaneous receivables which are non-interest bearing and are collectible upon demand.

Except for the assigned installment contract receivables with a local financial institution, no other trade and other receivables as at December 31, 2021 and 2020 are held as collateral for its liabilities.

6. REAL ESTATE INVENTORIES

Real estate inventories as at December 31 consist of:

	2021	2020
At cost:		
Raw land inventory	₱201,852,292	₱178,781,328
Projects under development	121,400,510	133,227,033
House and lot	64,118,612	78,726,528
	₱387,371,414	₱390,734,889

Raw land inventory consists of parcels of land in the cities of Manila, Bulacan, Cavite, Cebu and Iloilo.

The cost of projects under development consists of cost of land, site preparation and development, and construction cost of real estate inventories.

The Parent Company's real estate inventories consist of:

- Pacific Grand Villas in Cebu
- Pacific Grand Townhomes also in Cebu
- Chateaux Geneva and Costa Esmeralda (Jaro Estates) in Iloilo
- Wellford Homes in Iloilo
- Wellford Homes in Malolos
- Metro Tech Industrial Park (formerly Plastic City Industrial Park) in Valenzuela

The Parent Company has entered into joint venture agreement with related parties whereby the related parties contribute real estate properties to be developed by the Parent Company. The following projects were undertaken through these joint venture agreements:

a) *Chateaux Geneva*

The Parent Company completed in 2005 its residential subdivision project in Iloilo called Chateaux Geneva. This project is a joint operation project with Pacific Rehouse Corporation (PRC), an affiliate, by which they share on the net saleable areas of the joint venture property in accordance with their sharing agreement.

b) *Metro Tech Industrial Park (formerly Plastic City Industrial Park)*

In 1997, the Parent Company also entered into a joint operation agreement with its related parties, Inland Container Corporation, International Polymer Corporation, Kennex Container Corporation, Pacific Rehouse Corporation, Rexlon Industrial Corporation and Ropeman International Corporation, for the development of a certain real estate property into an industrial estate for a developer's fee of equivalent to forty percent (40%) of the net sales proceeds after deducting all relevant taxes and marketing expenses and administrative expenses, with the remaining sixty percent (60%) to be remitted to the owners.

On November 6, 2018, the Parent Company sold portion of its acquired interest and participation rights on the above-mentioned joint venture agreement on the parcels of land with an aggregate area of 3,886 square meters to Rexlon Industrial Corporation for a consideration amounting to ₱25,259,000 and total cost amounting to ₱10,198,993 resulted in ₱12,353,685 realized gross profit in statements of comprehensive income.

The cost of inventories recognized as expense and included in 'Cost of real estate sold' in the statements of comprehensive income amounted to ₱108,517,729, ₱90,084,118 and ₱96,061,696 for the years ended December 31, 2021, 2020 and 2019, respectively (see Note 19).

Real estate inventories with a total cost of ₱17.46 million as at December 31, 2021 and 2020, were used as collateral for borrowings obtained from Luzon Development Bank in 2013 (see Note 13).

Aside from the aforementioned information, no other real estate inventories as at December 31, 2021 and 2020 are held as collateral for its liabilities.

7. PREPAYMENTS AND OTHER CURRENT ASSETS

Prepayments and other current assets as at December 31 consist of:

	2021	2020
Creditable withholding tax	₱3,749,071	₱ 7,635,045
Deferred input tax	2,670,898	3,591,689
Prepaid expenses	897,486	567,035
Input tax	-	859,473
	₱7,317,455	₱ 12,653,242

Input tax was derived mainly from transactions related to the materials and services used in construction of houses sold and certain general and administrative expenses. Management believes that the input tax is fully realizable or recoverable because of the revenue to be generated from the vatable sales.

Prepaid expenses pertain to prepaid insurance, taxes and licenses, and office supplies.

8. INVESTMENT IN A SUBSIDIARY

Investment in a subsidiary as at December 31 consists of:

	2021	2020
Mariano Arroyo Development Corp. (MADCorp)		
Percentage of ownership	100%	100%
Carrying amount	₱ 7,800,000	₱ 7,800,000

MADCorp. (the 'Subsidiary') was incorporated in the Philippines and registered with the SEC on October 18, 2001.

The principal activity of the subsidiary is to engage in the business of dealing in real estate or other properties for industrial, commercial, residential, leisure, or sports purposes, and in pursuance thereof, to acquire by purchase, lease or otherwise, real estate and/ or appurtenant properties, and/ or interest therein.

The registered office address of the subsidiary is located at 35th Floor, One Corporate Center, Doña Julia Vargas Avenue corner Meralco Ave., Ortigas Center, Pasig City.

In 1996, the subsidiary's land, which was being leased to the Parent Company, was conveyed to the identified farmer beneficiaries by the Department of Agrarian Reform (DAR) upon settlement by a local bank of the corresponding compensation of ₱9.313 million plus interest. Since 1997, the subsidiary had no commercial operations.

Summarized financial information of the Parent Company's subsidiary as at December 31 is as follows:

	2021	2020	2019
Assets	₱ 320,116	₱ 4,886,887	₱ 7,080,732
